DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOOD CONTACT SURFACES: Prior to sanitizing, remove gross food particles, then wash with a detergent solution and rinse with potable water rinse. Sanitize with a concentration of 1.0 to 4.0 ounces Cosa Oxonia Active concentrate per 4 gallons of water (0.25% to 1.0% of active concentration). At this dilution Cosa Oxonia Active is effective against Staphylococcus aureus, Enterobacter aerogenes, coli, Escherichia coli 0157:74, Listeria monocytogenes, Salmonella typhimurium, Vibrio cholerae, and effective against organisms found in the brewing industry, Saccharomyces cerevisiae, Pedococcus dammous and Lactobacillus maniementenses. Use immersion, coarse spray or cir WASH THOROUGHLY: After handling with soap and water and before eating, drinking or inhaling. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Do not breathe or INHALED: Call a poison control center or doctor for further treatment. DIRECTIONS FOR USE: After use of the product, remove all surfaces. Test solutions on surfaces prior to use. All hard non-porous contact surfaces should be treated with the disinfectant for a period of not less than 5 minutes. Drain thoroughly and allow to air dry. Do not rinse needed.

STORAGE & DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

PESTICIDE STORAGE: Product should be kept cool and in a covered container to avoid any explosion hazard.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal Law. If these wastes cannot be disposed of adequate storage facilities, call your local authorized representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying.

solution and entrapped soil with a clean wet mop, cloth, or wet vacuum attachment. Prepare a fresh solution daily or when it becomes soiled or diluted.

At 20% 10 gallons per minute or at 20% 500 ppm in water, (50 mL/liter) (5.0% v/v). Allow to remain wet for a period of not less than 10 minutes. Rinse all surfaces thoroughly with the disinfecting solution and maintain a contact time of at least 10 minutes. Product contact surfaces must be rinsed with sterile water.

Sterilization of Manufacturing, Filling, and Packaging Equipment in Aseptic Processes: Prior to use of this product, remove gross soil particles from processing surfaces, then wash with a recommended detergent solution, followed by a thorough potable water rinse. Prepare a sterilizing solution by diluting 6.4 ounces Cosa Oxonia Active per gallon of water. All hard non-porous surfaces must be rinsed with sterile water.

Prior to use of the product, remove all surfaces. Test solutions on surfaces prior to use. All hard non-porous contact surfaces should be treated with the disinfectant for a period of not less than 5 minutes. Drain thoroughly and allow to air dry. Do not rinse needed.

DIRECTIONS FOR FOGGING: To sanitize hard surfaces as an adjunct to cleaning, use a dispersal rate of 0.3% to 3.0% (0.4% to 1.0% as active concentration) of the product solution. At this dilution, Cosa Oxonia Active is effective against Bacillus subtilis and Clostridium sporogenes when used per the label directions. NOTE: This product in use solutions is compatible with stainless steel and aluminum surfaces. If product is intended to be used on any other surface contact, follow the label directions to determine compatibility before proceeding with use.

Storage: Cosa Oxonia Active is effective against Staphylococcus aureus, Salmonella enterica, Salmonella enteritidis, Salmonella typhimurium, Proteus vulgaris, Streptococcus pyogenes and Heliothrips caputatum* at 0.4% to 1.0% (0.2 to 4 oz. / 4 gallons of water) in hard water (500 ppm as CaCO3). 5% blood serum and dried soap film residue. For heavily soiled areas a precleaning step is required. Prepare a disinfecting and cleaning solution by diluting 6.4 ounces Cosa Oxonia Active in 8 gallons of water (0.4% v/v). Apply solution with mop, cloth, brush, scrub, or coarse spray device or by spraying so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Do not breathe vapor. Wash thoroughly after handling and wash and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse. The following Personal Protective Equipment (PPE) should be used: When handling the product: covers all long-sleeved shirt and long pants, socks and chemical-resistant footwear, goggles or face shield, chemical-resistant gloves (such as rubber or made out of any waterproof material). Keep out of reach of children.
