Super Hil-Aire®
Fresh & Clean

Germicidal, Fungicidal, Staphylocidal
Pseudomonacidal, Tuberculocidal
Virucidal, Deodorizes
Kills Pandemic 2009 H1N1 influenza A virus (formerly called swine flu)
Prevents Mold and Mildew on Hard Non-Porous Surfaces

ACTIVE INGREDIENTS:
Ethyl alcohol ................................................................. 44.25%
n-8lyl (25% C-14, 40% C-12, 10% C-16) (dimethyl benzyl ammonium chloride) .................. 0.33%
o-Xylylene (1,4-dioxane) .................................................. 0.75%
(Contains 0.3% sodium nitrite)

TOTAL .......................................................... 100.00%

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if inhaled. Causes moderate eye irritation. Avoid breathing spray mist. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing before reuse.
FIRST AID STATEMENTS: IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

PHYSICAL OR CHEMICAL HAZARD: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store in a cool area away from heat or open flame.
DISPOSAL: Do Not Puncture or Incinerate. Place in trash or for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

DIRECTIONS FOR USE:
1. A violation of Federal law to use this product in a manner inconsistent with its labeling.
2. SPRAY DISINFECTANT: Disinfects and deodorizes surfaces through effective bactericidal and fungicidal activity. Kills Methicillin Resistant Staphylococcus aureus (MRSA), Staphylococcus aureus (ATCC 25923), Pseudomonas aeruginosa (ATCC 15442), Salmonella enterica (ATCC 14028), Tuberculosis bacillus (ATCC 6538), Trichophyton mentagrophytes (Athlete's Foot fungus) (ATCC 4640) on hard, non-porous surfaces. Controls odors. A tuberculocidal against Mycobacterium bovis (BCG) (ATCC 35743) when used according to a contact time of 10 minutes at 25°C. Kills HIV-1 and AIDS virus (strain HUT 114) and Herpes simplex virus type 1 and type 2 on environmental hard surfaces. Respiratory illnesses attributable to Pandemic 2009 H1N1 are caused by influenza A virus. This product is a broad-spectrum hard surface disinfectant that has been shown to be effective against (influenza A virus tested and labeled on the label) and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 (formerly called swine flu). Effective when tested by the AOAC Germicidal Spray Method. This product may be used in hospitals.
DIRECTIONS FOR USE: Shake well before using.
For use in hospitals and homes as a hard surface disinfectant deodorizer on walls, floors, bedframes, urinals, furniture, fixtures, toilet seats, diaper pails, examining tables, telephones, sinks, drainboards, cabinets, exterior surfaces of stoves, exterior surfaces of refrigerators, garbage cans, bathtubs, hampers, glazed tile walls.

For Surfaces (To Disinfect and Deodorize):
Clean soil deposits from surfaces to be treated. Remove protective cap, hold can upright and spray from a distance of 6 to 8 inches until area for treatment is thoroughly moistened. Allow surfaces to remain wet for a minimum of 10 minutes to ensure disinfection. Allow to air dry or remove excess solution. Food contact surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse. Do not use on dishes, glasses, or utensils.

This product is not to be used as a terminal sterilizing/disinfectant on any surface that has been occupied by a live human body, either into or in contact with the bloodstream or chronic sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the body barrier or otherwise enter normally sterile areas of the body. This product may be used to prevent, control of contamination critical or semi-critical medical devices prior to sterilization or high level disinfection.

For Control of Mold and Mildew on Non-Porous Surfaces: Clean surfaces prior to application, then spray surfaces thoroughly modified. Allow to dry. Repeat application in 14 days or when growth appears.

To Disinfect Veterinary Offices and Animal/Pet Areas: Remove all animal and food premises, vehicles, cages, kennels, etc. Remove all droppings, and manure from floor, walls, and other areas. Closed surfaces. Do not wash any animal or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub feeding and watering equipment with soap or detergent, wash, and rinse with potable water before reuse.

Do not spray on polished wood, furniture or rayon fabrics.

*KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is a greater likelihood of soiling on inanimate surfaces and/or objects with blood or body fluids, and in which the surfaces/objects are likely to be soiled with blood or body fluids that can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/ OBJECTS SOILED WITH BLOOD/BODY FLUIDS:
PERSONAL PROTECTION: Disposal of latex or vinyl gloves, gowns, masks, and eye protection must be worn during cleaning of body fluids, blood, and decontamination procedures. CLEANING PROCEDURE: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of product. CONTACT TIME: Allow surfaces to remain wet for 10 minutes to kill HIV-1. All microorganisms listed on the label.

DISPOSAL OF INFECTIOUS MATERIALS: Bikes and other body fluids should be autopsied and disinfected according to Federal, State and local regulations for infectious waste disposal.
