CHLORINATING LIQUID FOR POOL AND SPA SANITIZATION

KEEP OUT OF REACH OF CHILDREN

DANGER

DIRECTIONS FOR USE

This product should be used to aerate or aerate the pool and spa water. A 100% chlorine content is required to maintain a free chlorine residual in the pool and spa water.

DETERMINING POOL/WATER DISINFECTION

NEW POOL OR REAERATING POOL: Add 1.5 lb. of chlorine to the pool for every 10,000 gallons of pool water. This is a rough estimate and the actual amount may vary. The initial dosage is based on the total volume of water in the pool at the time of initial chlorination. Subsequent dosages are based on the total volume of water in the pool at the time of each dosage.

DISCHARGE DIRECTIONS FOR POOL, SPA, AND HOT TUB USES

Before draining a treated pool, spa, or hot tub, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool or spa water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

STORAGE AND DISPOSAL

Do not store in a location where it may be reached by children. Do not store where it may come in contact with food or feed items. Store in a cool, dry, well-ventilated area. Keep tightly closed when not in use. Do not store with or near other chemicals. Do not store in direct sunlight or near heat.

PERIODIC DIRECTIONS FOR SPA, POOL AND HOT TUB USES

Enter the product into the pool at the rate of 1 lb. of chlorine for every 20,000 gallons of water. The initial dosage is based on the total volume of water in the pool at the time of initial chlorination. Subsequent dosages are based on the total volume of water in the pool at the time of each dosage.

NOT TO PHYSICIAN

Prohibited disposal - may contain asbestos.

NOTE TO PHYSICIAN

PROTECTIVE GLOVES MUST BE WORN WHEN HANDLING THIS PRODUCT.

PRECAUTIONARY STATEMENTS

Hazard Class and DOT Commercial Name: DG, PPG III

Corrosive: Causes irreversible eye damage and skin burns. It is harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear safety glasses, goggles, or face shield, protective clothing, and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. In the Directions for Use section, under swimming pools/spas, see specific "Discharge Directions for Pool, Spa and Hot Tub Uses."
