How to Apply

**FRONTLINE Plus for Dogs**

**Step 1.**
**OPEN Applicator**
Hold upright with foil side toward you and snap applicator tip.

**Step 2.**
**APPLY FRONTLINE Plus**
Part the dog’s hair between the shoulder blades. Place the applicator tip just above the skin and squeeze. Apply entire contents of the applicator in a single spot directly onto the dog’s skin. Do not apply on top of the hair coat. Avoid contact with treated area until dry. Do not allow your dog to ingest the product. Do not apply to dogs weighing less than 89 lbs. or younger than 8 weeks of age. Do not use two applicators for dogs weighing more than 132 lbs. Do not use more than one application per dog per month.

**Questions or Comments?**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**DO NOT USE ON CATS**

**KILLS Ticks, including those that may transmit Lyme disease**

**Active Ingredients:**
Fipronil: 9.8%
(S)-methoprene: 8.8%
Other Ingredients: 81.4%
Total: 100.0%

**Net Contents:** 1-0.136 fl oz (4.02 mL) applicator
1 monthly dose

**For use ONLY on DOGS** 89 to 132 lbs

**See inside panels for FIRST AID and PRECAUTIONARY statements.**
FRONTLINE® Plus for Dogs:

For use ONLY on DOGS & PUPPIES 8 weeks or older and weighing at least 89 lbs. Fast-acting, long-lasting, waterproof treatment and control of fleas, flea eggs & larvae, ticks, chewing lice, and sarcoptic mites.

**ACTIVE INGREDIENTS**
- Fipronil: ................................................ 9.8%
- (S)-methoprene ........................................ 8.8%

**OTHER INGREDIENTS** ........................................ 81.4%

**TOTAL .................................................... 100.0%

**KEEP OUT OF REACH OF CHILDREN**

CAUTION

FRONTLINE® Plus for Dogs:

- **Fleas**
  - Kills fleas, flea eggs and flea larvae
  - Prevents all flea stages (eggs, larvae, pupae) from developing
  - Stops existing infestations and prevents establishment of new infestations
  - Kills fleas which may cause flea allergy dermatitis

- **Ticks**
  - Kills all life stages of ticks (larva, nymph and adult)
  - Kills ticks which may transmit Lyme disease, Rocky Mountain Spotted Fever, ehrlichiosis, babesiosis, anaplasmosis and other tick-borne diseases

- **Lice**
  - Rapidly eliminates chewing lice infestations

- **Mites**
  - Aids in control of sarcoptic mange infestations

**FRONTLINE® Plus is approved for use on all dogs, including:**
- Breeding, pregnant, and lactating bitches
- Puppies as young as 8 weeks and weighing at least 89 lbs.

**One spot application is all that’s needed:**
FRONTLINE Plus spreads from the single point of application, rapidly covering the entire dog and localizing in the hair, on the surface of the skin and in the sebaceous glands. These glands act as a reservoir, continuously replenishing FRONTLINE Plus onto the skin and hair coat, so it keeps working even if the dog gets wet.

Fleas, ticks and chewing lice are killed quickly after coming into contact with a treated dog. Fleas and ticks do not need to bite the dog in order to die.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. TO PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL AND DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. USE ON DOGS ONLY. DO NOT USE ON RABBITS. DO NOT USE ON OTHER ANIMALS. To kill fleas, flea eggs & larvae, ticks, and chewing lice apply FRONTLINE Plus for Dogs as follows:

- **OPEN Applicator**
  - Hold upright with foil side toward you and snap applicator tip.
  - **APPLY FRONTLINE Plus**
    - Part the dog’s hair between the shoulder blades. Place the applicator tip just above the skin and squeeze. Apply entire contents of the applicator in a single spot directly onto the dog’s skin. Do not apply on top of the hair coat. Avoid contact with treated area until dry. Do not allow your dog to ingest the product. Do not apply to dogs weighing less than 89 lbs. or younger than 8 weeks of age. Do not use two applicators for dogs weighing more than 132 lbs. Do not use more than one application per dog per month.
    - FRONTLINE Plus is approved for use on all dogs, including breeding, pregnant, and lactating bitches and puppies as young as 8 weeks.
    - FRONTLINE Plus remains effective even after bathing, water immersion, or exposure to sunlight.

**FREQUENCY OF APPLICATION**
When used monthly, FRONTLINE Plus completely breaks the flea life cycle and controls tick and chewing lice infestations. Do not reapply FRONTLINE Plus for 30 days.

FRONTLINE Plus kills adult fleas, flea eggs, and flea larvae for up to three months. FRONTLINE Plus also prevents development of all flea stages for up to three months. FRONTLINE Plus can control fleas for up to three months, however, if there is a high risk of reinfestation or if the pet has fleas which may cause flea allergy dermatitis, a once monthly application may be needed.

FRONTLINE Plus kills ticks for at least one month. A once monthly application is recommended where tick control is needed.

FRONTLINE Plus kills all life stages of ticks (larva, nymph and adult). FRONTLINE Plus kills ticks that may transmit Lyme disease, Rocky Mountain Spotted Fever, ehrlichiosis, babesiosis, anaplasmosis and other tick-borne diseases.

FRONTLINE Plus kills chewing lice for at least one month. A once monthly application is recommended where chewing lice control is needed.

FRONTLINE Plus aids in the control of sarcoptic mange infestations. Monthly monthly treatments are recommended for the elimination of mites.

**STORAGE AND DISPOSAL**
Do not contaminate water, food, or feed by storage and disposal.

**STORAGE.** Store unused product in original container, out of reach of children and animals.

**PESTICIDE DISPOSAL.** If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**CONTAINER DISPOSAL.** If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**FIRST AID**
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS.** Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**HAZARDS TO DOMESTIC ANIMALS.** For external use only. Do not use on puppies under 8 weeks of age and 89 lbs. Individual sensitivities, while rare, may occur after using any pesticide product.

**SIDE EFFECTS:** Dogs may experience some temporary irritation at the site of application. If signs persist or become more severe within a few days of application, consult a veterinarian immediately.

If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating the treatment. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged animals. Call 1-800-660-1842, Monday-Friday, 8am-8pm EST.

**PHYSICAL OR CHEMICAL HAZARDS**
Combustible: Do not use or store near heat or open flame.

**HOW SUPPLIED**
For easy and convenient treatment, FRONTLINE Plus for Dogs is available in sizes for use ONLY on small dogs and puppies 8 weeks or older and 5-22 lbs., medium dogs ONLY 23-44 lbs., large dogs ONLY 45-88 lbs., and extra-large dogs ONLY 89-132 lbs.

**WARRANTY**
To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instructions.

FRONTLINE Plus for Dogs

For use ONLY on DOGS

- Fast-acting
- Long-lasting
- Waterproof

Kills ticks, including those that may transmit Lyme disease.
FRONTLINE® Plus for Dogs:

- Fast-acting
- Long-lasting
- Waterproof

One spot application is all that’s needed:
FRONTLINE® Plus contains fipronil, a single point of application, rapidly covering the entire dog and localizing in the hair, on the surface of the skin and in the sebaceous glands. These glands act as a reservoir, continuously replenishing FRONTLINE Plus onto the skin. It remains on the coat even if the dog gets wet.

Fleas, flea eggs, and larvae are killed quickly after coming into contact with a treated dog. Fleas do not need to bite the dog in order to die.

FRONTLINE® Plus for Dogs:

**Fleas**
- Kills adult, flea eggs, and flea larvae
- Prevents all flea stages (eggs, larvae, adults) from developing
- Stops existing infestations and prevents establishment of new infestations
- Kills flea larvae which may cause flea allergy dermatitis

**Ticks**
- Kills all life stages of ticks (larva, nymph, and adult), including those that may transmit Lyme disease, Ehrlichiosis, Anaplasmosis, Babesiosis, and other tick-borne diseases
- Kills ticks that may transmit Rocky Mountain spotted fever
- Stops existing infestations

**Lice**
- Rapidly eliminates chewing lice infestations

FRONTLINE® Plus is approved for use on all dogs, including:
- Breeding, pregnant, and lactating bitches
- Puppies as young as 8 weeks and weighing at least 8 lbs.
FRONTLINE Plus for Dogs is a topical treatment for the prevention and control of flea infestations and the treatment of tick infestations. It is effective against these pests for up to 30 days. FRONTLINE Plus is safe and effective for dogs as young as 8 weeks of age. Do not use on cats.

**Directions for Use**

1. Use scissors to separate one blister.
2. Use scissors to cut along dotted line.
3. Peel down foil to remove the applicator.
4. Hold upright with foil side toward you and snap applicator tip.
5. Apply to the dog's back between the shoulder blades. Place the applicator tip (velcro side) onto the skin and break tape. Apply entire contents of the applicator to one spot directly onto the dog's skin. Do not apply to the dog's hair coat. Avoid contact with treated area until dry. Do not allow your dog to ingest the product. Do not allow your dog to ingest the product. Do not apply to dogs weighing less than 89 lbs. or younger than 8 weeks of age. Do not use more than one application per dog per month.

Part the dog’s hair between the shoulder blades. Place the applicator tip just above the skin and squeeze. Apply entire contents of the applicator in a single spot directly onto the dog’s back, just above the skin, away from the hair coat. Avoid contact with treated area until dry. Avoid contact with treated area until dry. Do not allow your dog to ingest the product. Do not apply to dogs weighing less than 89 lbs. or to cats. Do not use two applicators for dogs weighing more than 132 lbs. Do not use more than one applicator per dog per month. Questions or Comments? Call: 1-800-660-1842

FRONTLINE Plus for Dogs is approved for use on all dogs, including breeding, pregnant, and lactating bitches and puppies, and on puppies 8 weeks of age and older.

FRONTLINE Plus remains effective even after bathing, water immersion, or exposure to sunlight. FRONTLINE Plus is waterproof to prevent washoff when dogs bathe, swim, or walk in water. Ina study comparing the effectiveness of FRONTLINE Plus on dogs weighing 13 to 32 lbs. or 33 to 66 lbs. after a single treatment, FRONTLINE Plus was more effective than a comparable topical solution against flea infestations after 14 days in dogs weighing 13 to 32 lbs. and after 28 days in dogs weighing 33 to 66 lbs.

FRONTLINE Plus kills all life stages of ticks (larva, nymph and adult). It prevents the development of all forms of the tick (larva, nymph, and adult) for up to 30 days. In addition, FRONTLINE Plus can control or prevent ticks for up to 30 days in puppies. A preventative strategy of using a tick control product on the pet for 6 to 12 months may be desirable in areas where ticks are abundant and where ticks transmit Lyme disease.

FRONTLINE Plus kills adult chewing lice for at least one month. A single monthly application is recommended when lice infestations are known to be present.

FRONTLINE Plus kills biting lice for at least one month. A single monthly application is recommended when lice infestations are known to be present.

FRONTLINE Plus kills sarcoptic mange (scabies) mites for up to 30 days. Multiple monthly treatments are recommended for the elimination of mites.

FRONTLINE Plus is approved for use in dogs weighing more than 8 lbs. Do not use more than one applicator per dog per month. Do not use on cats. Do not allow children to apply product.

TO PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL AND DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS.

FRONTLINE Plus for Dogs provides fast-acting, long-lasting, and waterproof protection against fleas and ticks and controls chewing lice, sarcoptic mange (scabies), and ear mites. FRONTLINE Plus also kills all life stages of lice and prevents their development. EARLY EXPOSURE TO LICE, TICS, OR CHEWING LICE CAN BE TOXIC TO THE DOG.

FRONTLINE Plus kills lice for at least one month. A single monthly application is recommended when lice infestations are known to be present. FRON
FRONTLINE® Plus for Dogs is:
• Fast-acting
• Long-lasting
• Waterproof
One spot application is all that’s needed.

FRONTLINE Plus spreads from the single point of application, rapidly covering the entire body and localizing in the hair, on the surface of the skin and in the sebaceous glands. The drug continues to migrate onto the skin and hair coat, or lymphatic network even if the dog gets wet.

Fleas, flea eggs & larvae, ticks and chewing lice are killed quickly after coming into contact with a treated dog. Flea and tick control is vital when entering into contact with a treated dog.

FRONTLINE Plus for Dogs:
Fleas
• kills adult, flea eggs and flea larvae
• kills all life stages of fleas, including flea eggs, larvae and adults
• stops and reduces infestations and prevents establishment of new infestations
• kills fleas which may cause flea allergy dermatitis

Ticks
• kills all life stages of ticks (larva, nymph and adult), including deer ticks (Ixodes scapularis), brown dog ticks (Rhipicephalus sanguineus), American dog ticks (Dermacentor variabilis) and lone star ticks (Amblyomma americanum)
• kills ticks that may transmit Lyme disease, Rocky Mountain spotted fever, ehrlichiosis, anaplasmosis and other tick-borne diseases
• rapidly eliminates chewing lice infestations

Lice
• controls and eradicates sarcoptic mange infestations

FRONTLINE Plus is approved for use on all dogs, including:
• Breeding, pregnant, and lactating bitches
• Puppies as young as 8 weeks and weighing at least 3 lbs.
FRONTLINE Plus for Dogs provides fast-acting, long-lasting, proven protection from fleas, ticks, chewing lice, sarcoptic mange, and s Kumarosis for up to 3 months. It is safer than safe and has been specifically designed for dogs weighing 89-132 lbs.

Directions for Use:
1. Use scissors to separate one blister. 2. Use scissors to cut along dotted line. 3. Hold upright with foil side toward you and snap applicator tip. 4. PART THE DOG'S HAIR BETWEEN THE SHOULDER BLADES. PLACE THE APPLICATOR TIP JUST ABOVE THE SKIN AND SQUEEZE. APPLY ENTIRE CONTENTS OF THE APPLICATOR IN A SINGLE SPOT DIRECTLY ONTO THE DOG'S SKIN. DO NOT APPLY ON TOP OF THE HAIR COAT. AVOID CONTACT WITH TREATED AREA UNTIL DRY. DO NOT ALLOW YOUR DOG TO INFECTED CATS. DO NOT APPLY TO CATS.

Precautions:
- Do not use on dogs younger than 8 weeks of age. Do not use on dogs weighing less than 89 lbs.
- Do not use on cats.
- Keep out of reach of children.
- Do not apply to cats or other animals.

Storage:
Store at or below 25° C (77° F). Protect from excessive moisture and direct sunlight.

Merial, Inc. - 3239 Satellite Blvd. Duluth, GA 30096-4640, USA ©2015 Merial, Inc., Duluth, GA. All rights reserved.
To successfully control fleas and ticks, all pets must be treated with their own dose of FRONTLINE®.

Apply according to label instructions, ensuring the product is applied to the skin, not on top of the fur and not near the collar. It may be helpful to remove the collar before application, so it doesn’t absorb the product.

Remember, your dog needs to be dry at the time FRONTLINE is applied and remain dry 24 hours after application.

Verify pipette is empty after application (multiple squeezes may be necessary to apply the entire dose).

Even indoor dogs need flea and tick control because you or other pets in the household may bring fleas into the home. These fleas can lead to a flea infestation.

It can take up to 3 months to get rid of a serious flea infestation because of all of the flea life stages that existed BEFORE you started using FRONTLINE.

The adult fleas on your pet may just be the tip of the infestation iceberg.

- 5% Adult Fleas
- 10% Pupae
- 35% Larvae
- 50% Eggs

Adult Fleas live up to 120 days
Pupae can survive up to 174 days
The larval stage lasts 5-11 days
Eggs will hatch in 1-10 days

The average flea life cycle in the home is about 21 days long.
To ensure continued protection of your dogs, use these stickers as a reminder to apply and re-purchase FRONTLINE.

After treating your dog for the first time, peel off the sticker and place on your calendar that day.

Place the remaining stickers on your calendar as a reminder to apply FRONTLINE monthly.

6 Months
