CLIDOX-S® BASE
A CHLORINE DIOXIDE/SODIUM HYDROXIDE MIXTURE
FOR USE WITH CLIDOX-S® ACTIVATOR

BACTERIAL PATHOGENS:
- Salmonella enterica
- E. coli
- Pseudomonas aeruginosa
- Staphylococcus aureus
- B. subtilis
- P. aeruginosa
- Listeria monocytogenes
- Salmonella typhimurium
- Escherichia coli
- Staphylococcus epidermidis
- Staphylococcus aureus
- Streptococcus pyogenes
- Mycobacterium tuberculosis
- Mycobacterium avium
- Escherichia coli
- Viruses (such as polio virus, Coxsackie virus, adenovirus, and Norwalk virus)
- Fungi (such as candida, aspergillus, and penicillium)

CLIDOX-S® 1:18 solution may be used for disinfection at 20°C for 5 minutes.

MURINE NOROVIRUS MNV-1.CW1: 1 part CLIDOX-S BASE into 4 parts CLIDOX-S ACTIVATOR dilution may be used for disinfection at 20°C for 5 hours. 

DISINFECTION OF INSTRUMENTS: CLIDOX-S® solution can be used at the 1:3:1 dilution for 5 hours at 25°C. Lumen of any hollow instrument must be flushed and filled. Aseptically transfer the treated articles to a sterile enclosed device. Necessary to ensure aseptic technique. 

STERILIZATION: CLIDOX-S® solution can be used for the sterilization of hard, nonporous, inanimate environmental surfaces such as polycarbonate, polyvinyl chloride, polypropylene, and polystyrene), tile, and glass. For sterility maintenance, CLIDOX-S® at a 1:1 dilution for 30 minutes at 23°C. 

CAUTION: This product is not to be used as a terminal sterilant/high level disinfectant on any surface or material. 

STORAGE & DISPOSAL: 

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. 

DO NOT CONTAMINATE WATER, FOOD OR FEED BY 

DIRECTIONS FOR USE

Precautionary Statements:
- Hazards to humans and domestic animals 
- Keep out of reach of children
- In case of contact with eyes, rinse immediately with plenty of fresh, DI or RO water for 15 - 20 minutes. 
- Take off contaminated clothing. 
- Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. 
- In case of contact with skin, rinse immediately with plenty of fresh, DI or RO water for 15 - 20 minutes. 
- Do not induce vomiting unless told to do so by medical personnel or a poison control center. 
- In case of ingestion, call a poison control center or doctor for treatment advice. 
- If in eyes: 
- Call a poison control center or doctor. 
- If inhaled: 
- Call a poison control center or doctor. 
- For emergency medical information.

User Safety Instructions:

Personal Protection:
- Use gloves (such as, or made out of, PVC, neoprene, nitrile rubber, or any waterproof material). 
- Gloves should be changed after a contact time of 3 minutes at 23°C (room temperature). Although efficacy at a 3-minute contact time is demonstrated, a 5-minute contact time minimizes the possibility of recontamination. 

DIRECTIONS FOR USE

Physical and Chemical Hazards:
- Wear gloves, other protective clothing, and other necessary protective equipment. 
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. 

PRECAUTIONARY STATEMENTS:
