**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation. Refer to supplemental labeling (package enclosure) for crops, rates, Personal Protective Equipment (PPE) and general directions.

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. Refer to supplemental labeling under “Agricultural Use Requirements” in the Directions for Use section for information about this standard.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Reclose containers of unused BioBit HP. Store in a dry place.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then, offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**ACTIVE INGREDIENT:**

*Bacillus thuringiensis*, subsp. *kurstaki*, strain ABTS-351, fermentation solids, spores and insecticidal toxins .................................................. 58.2%

Other Ingredients: .............................................................................. 41.8%

Total: .................................................................................................. 100.0%

Potency: 32,000 Cabbage Looper Units (CLU) per mg of product or 14.52 billion Cabbage Looper Units (CLU) per pound of product. The percent active ingredient does not indicate product performance and potency measurements are not federally standardized.

**KEEP OUT OF REACH OF CHILDREN**

For First Aid and Precautionary Statements refer to Package Enclosure.

Contact 1-800-892-0099 for emergency medical treatment and/or transport emergency information. For all other information, call 1-800-6-VALENT (682-5368).

**Net Contents: 22 lbs. (9.98 Kgs.)**

Pest Management Tips

- Avoiding spray drift at the application site is the responsibility of the user and the user’s operator. Applications must be made in such a way as to achieve thorough spray coverage of infested plant parts. The volume of water used per acre or spray units used per acre must be the same regardless of weather conditions. The user and operator must ensure that the application site is protected from particles that may be from the drift, unless there is a label prohibition against such mixing. Do not exceed the maximum application rates for the pesticide and the mix compatibility.

- The application rate for BioBit HP should be at a positive displacement pump for the mix rate to the appropriate volume of water in the spray tower or to a pumping system on the tractor. The application rate of BioBit HP should be applied to the water system in the spraying unit.

- The requirements in this box apply to uses of this product under the Worker Protection Standard (WPS) (29 CFR Part 1910 Subpart P) for agricultural pesticides and under other regulations that implement the WPS.

- The requirements in this box apply to uses of this product under the Worker Protection Standard (WPS) (29 CFR Part 1910 Subpart P) for agricultural pesticides and under other regulations that implement the WPS.
