This algicide is economical, efficient and stable. In use dilution, this product is non-staining and non-corrosive to pool surfaces and equipment.

This algicide is formulated to complement swimming pool water being treated with normal chlorine systems. It is especially effective against growth of algae and, being non-volatile, aids in maintaining pool water clarity and sparkle.

The residual effectiveness of this algicide tends to stabilize the total chemical treatment system.

This algicide is compatible with most chemicals normally used in swimming pool maintenance; however, in its concentrated form, this chemical must not come in contact with high concentrations of chlorine. DO NOT MIX ALGICIDE AND CHLORINE TOGETHER before adding to the pool. These chemicals should be handled separately.

**DIRECTIONS FOR USE**

1. For an initial application or when pool water is changed use one quart per 25,000 gallons of water.
2. For maintenance, use one ounce per week per 5,000 gallons of water. After each rain of consequence, add one ounce per 5,000 gallons of water in addition to the above amounts.
3. The appropriate amount of this algicide must be added by pouring directly into the pool. More rapid distribution will be achieved by pouring a little of the specified amount into several areas of the pool. Recirculation or swimming activity will assure rapid dispersion.

**TO DETERMINE POOL CAPACITY:**

- **Rectangular Pools:** Length times width times average depth (in feet) times 7.5 equals gallons.
- **Round and Oval Pools:** Average diameter times average diameter times average depth (in feet) times 5.9 equals gallons.

**STORAGE AND DISPOSAL:** Store in original container in areas inaccessible to children. Nonrefillable container. Do not reuse or refill this container. Wrap and put in trash or offer for recycling if available.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear safety glasses, rubber gloves and protective clothing. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic invertebrates.

**ACTIVE INGREDIENT:** Alkyl (C14, 58%; C16, 28%; C12, 14%) dimethyl benzyl ammonium chloride ............................................................... 40%

**INERT INGREDIENTS:** ................................................................................... 60%

**TOTAL:** ...........................................................................................................100%
