ENFORCER® Mosquito & Flying Insect Killer II

**DIRECTIONS FOR USE**

- Place unit upwind of the treated area and direct the nozzle in the direction of the wind. Do not make applications into sewers, ditches, gutters or surface waters.
- Do not apply to areas exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow the pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This pesticide is highly toxic to bees. Avoid exposure of bee colonies to this product when it is in bloom. Thoroughly wet down grass a few hours before applying. Home lawns should be no taller than 3 inches at time of application. Slightly more water may be used as long as the amount of product per area is as listed.

**OUTDOOR SURFACES**

**PESTS:** Aphids, Bagworms, Black Flies, Bucket Mosquitoes, Box Elders, Fungus gnats, Fruit Fly, Grasshoppers, Mosquitoes, New World Sterile Insect, Weevil, Whiteflies, Wood Boring Beetles, Wood Boring Termites

**HOW TO USE:**

**APPLICATION:** To help prevent infestation of buildings, treat the building foundation to a height of 3 feet where pests are active and entering foundations. Also apply as a targeted application to outside surface of building, including garages, eaves, and other areas where pests congregate. Do not apply to outside surfaces of this product to direct treatment on blooming crops or weeds. Do not apply to areas exposed to direct treatment on blooming crops or weeds. Do not apply to areas exposed to direct treatment on blooming crops or weeds. Do not apply to areas exposed to direct treatment on blooming crops or weeds.
