It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
SHAKE WELL

MIXING INSTRUCTIONS

DURING GROWING SEASON
Amount to Use: 2 1/2 fl oz (5 Tbs) per gallon of water
When using Ortho® Dial 'n Spray®:
1. Set dial to 2 1/2 oz.
2. For 3 gallons (gal) of spray add 7 1/2 fl oz (15 Tbs) to sprayer jar. DO NOT add water.
3. After spraying, unused product can be poured back into its original container.

DURING DORMANT SEASON
Amount to Use: 1 1/2 fl oz (3 Tbs) per gallon of water

HOW TO APPLY
- Use a tank, Ortho® Dial 'n Spray® or other hose-end sprayer.
- Spray to uniformly cover all upper and lower leaf surfaces, stems, branches, and trunk.

WHEN TO APPLY
- Spray when air is calm to avoid drift.
- Spray when temperature is above 40°F but below 85°F.
- If temperature is expected to exceed 85°F spray in early morning or late afternoon when it is cooler (and when dew has evaporated).

Growing Season
- Spray when insects are present or feeding injury is first noticed.
- Spray up to 4 times, waiting 2 weeks between each application.
- Additional Tips
  - Growing season is year-round for some shrubs and trees, such as citrus.
  - Spray azaleas and camellias between spring and fall blooms.
  - During the growing season do not apply to foliage within 30 days before or after using products containing sulfur, lime-sulfur or capran.

Dormant Season
- Spray dormant shrubs and trees once in late winter or early spring.
- Additional Tips
  - Roses and other deciduous shrubs and trees are dormant after all of their leaves are shed.
  - Conifers do not shed all of their needles but are usually dormant after the first killing frost.

WHEN TO HARVEST
Listed fruit trees may be sprayed up to the day of harvest.

IMPORTANT
DO NOT use on maidenhair ferns, red maples, Japanese maples or non-woody plants unless otherwise specified. Volck® Oil Spray may cause discoloration to blue spruce.
COMBINATION SPRAYS
With Ortho Malathion Plus
For avocados, citrus (grapefruits, lemons, limes and oranges),
gardens and boxwood control aphids, mealybugs, scales,
spider mites, thrips, whiteflies and to remove Scoky Mold
Fungus by controlling Whitely larve.
Use ½ fl oz (1 Tbs) Volak® Oil Spray plus ½ fl oz (1 Tbs)
Malathion Plus per gallon of water. Spray when insects
are present or feeding injury is first noticed but NOT
during full bloom or within 7 days of harvest. Follow all
precautions and directions on both product labels.

ADDITIONAL USES
Palm Trees (except coconut palms)
To control mealybugs, scales and spider mites:
Use 1½ fl oz (3 Tbs) per gallon of water.

Leaf Polish
For Houseplants:
Use 1½ fl oz (3 Tbs) per gallon of water.

Home Greenhouses (not for commercial use)
For shrubs including azaleas, camellias and gardenias to
control mealybugs, scales, spider mites and whiteflies:
Use 1 tsp per 24 fl oz water (1 fl oz per gallon of water).
Spray up to 3 times, waiting at least 60 days between
each application.

HOW IT WORKS:
Effective against multiple stages of Mealybugs, Scale, Spider Mites, Flies
Caterpillars, Whiteflies, and other common pests. Ortho Malathion promotes and forms
control of pest in dormant and growing season without frequent applications.

STORAGE AND DISPOSAL:
STORAGE: Store only in original container in a safe place.
DISPOSAL: Do not reuse containers. Securely wrap partially filled or empty
containers, place in plastic bags and dispose of.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed, inhaled, or if contact with skin or
caused by ingestion, inhalation, or dermal contact. Avoid breathing
vapor or dust. Wash hands after handling. Remove contaminated clothing and wash promptly before eating.

FIRST AID: IF SWALLOWED: Immediately telephone a poison control center or a physician for advice. DO NOT make person
vomiting. Product contains mineral oil. May pose an aspiration hazard. If medical advice cannot be obtained, then immediately take person and product
container to an emergency treatment center or hospital. IF ON SKIN: Wash with
plenty of soap and water. Get medical attention if irritation persists. IF INHALED:
Remove victim to fresh air. If not breathing, give artificial respiration, preferably
mouth-to-mouth. Get medical attention. IF IN EYES: Rinse eyes with plenty of
water. Call a physician if irritation persists. NOTE TO PHYSICIANS: Emergency
Information call 1-800-225-2883. This material contains light hydrocarbon
liquid and may pose an aspiration hazard. ENVIRONMENTAL HAZARDS: This
product is toxic to fish. Do not apply directly to any body of water. Do not apply
where runoff is likely to occur. Do not contaminate water by cleaning of
equipment or disposal of wastes. PHYSICAL OR CHEMICAL HAZARDS: Do not
use or store near heat or open flame.

NOTICE: Buyer assumes all risk of use, storage or handling of this product not
in accordance with directions.
