2-Quat®

GENERAL CLEANING – To disinfect inanimate, hard, non-porous surfaces add 1 ounce of PacRite® 2-Quat Plus per gallon of water. Apply so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid.

BACTERICIDAL ACTIVITY – When diluted at the rate of 1 ounce of PacRite® 2-Quat Plus per gallon of water, PacRite® 2-Quat Plus exhibits effective disinfectant activity against the organisms: Pseudomonas aeruginosa PRD 10, Escherichia coli, Klebsiella pneumoniae, Salmonella (shochmutera) enterica, Salmonella (choleraeus) enterica, Streptococcus salivarius, Brevibacterium ammi-

NOTE TO PHYSICIAN

PROSTATE CANCER PREVENTION – PacRite® 2-Quat Plus is a phosphate free formulation designed to provide effective cleaning, deodorization, sanitization and disinfection specifically for food processing plants and manufacturing facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. This product PacRite® 2-Quat Plus, when used as directed, is formulated to disinfect the following hard non-porous inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, and plastic surfaces.

2-Quat Plus has been cleared by the FDA in 40CFR Section 180.940 for use as a sanitizer on food processing equipment, utensils, and other food contact articles at a concentration of 200 ppm active quaternary ammonium chloride without requiring a Potable Water Rinse.

Bactericidal activity of 2-Quat Plus is not for use on critical and semi-critical medical device surfaces.

FIRST AID

If swallowed
• Call poison control center or doctor for treatment advice.

If in eyes
• Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If on skin or clothing
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes.
• Call poison control center or doctor for treatment advice.

If on skin or clothing
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes.
• Call poison control center or doctor for treatment advice.

If inhaled
• Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

INERT INGREDIENTS:
• n-Alkyl (60% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL

PESTICIDE STORAGE - Store in a dry place no lower in temperature than 50° F or higher than 120°F.

CONTAINER DISPOSAL - Non-refillable container. Do not refill or re-use container. Triple rinse as follows: Fill container 1/4 full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Follow Pesticide Disposal instructions for insecticide disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

You may contact PROSAR 888-271-4499 for emergency medical treatment information.

NOTE TO PHYSICIAN

Probable mucosal damage will contraindicate the use of gastric lavage.
