TOTAL INGREDIENTS: ........................................................................ 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION
See Back Panel for Additional Precautionary Statements.

NET WEIGHT 5 LBS. (2.27 kg)
Natural-Guard® Crawling Insect Control Containing Diatomaceous Earth is made from Amorphous Diatomaceous Earth fresh water type. Its killing actions are mechanical. Insects cannot become immune to its action. Insects come in contact with the powder or ingest it and literally dry up and die within 48 hours. Diatomaceous Earth also has a highly repellent effect on most insects. Diatomaceous Earth is odorless, nonstaining and remains effective in the control of insects as long as the product is present.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry area.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: When empty, close container and discard in trash. Partially filled container may be discarded by wrapping in several layers of newspaper and discard in trash. Then dispose of empty bag in a sanitary landfill or by incineration, if allowed by State and Local authorities. If burning, stay out of smoke.

INDOOR USES: Natural-Guard® Crawling Insect Control is intended for application with a hand duster, power duster or similar means for application to areas where crawling insects are found. Apply Natural-Guard® Crawling Insect Control to cracks and crevices with the use of a bulbous duster or other suitable equipment. Apply lightly and uniformly.
For Cockroaches, Ants, Earwigs, Millipedes, Centipedes, Crickets and Silverfish: Lightly coat a thin layer of Natural-Guard® Crawling Insect Control in areas where pests are found and may hide, such as cracks and crevices, behind and beneath refrigerators, cabinets, stoves, garbage cans, and in and around sewer pipes and drains, window frames and in attics and basements. Dust insects directly if possible. Repeat treatment regularly or whenever reinestation is noted.
For Fleas: Thoroughly treat floor and bedding in and around pets' sleeping quarters. Treat surrounding cracks and crevices, baseboards, carpeting and wherever fleas are suspected. Treat pets directly with a product registered for use to control fleas.
For Carpet Beetles: Dust along baseboards, carpet edges, under carpeting, furniture, in closets and shelving where these insects are seen or suspected.

Bedbugs: Dismantle bed. Use Natural-Guard® Crawling Insect Control in joints, crevices and where rungs are inserted. See that all interior areas are dusted. Dust mattresses especially folds and edges. All cracks and crevices in the bedroom should be treated.

OUTDOOR USES: For control of Cockroaches, Earwigs, Grasshoppers, Ants, Crickets, Slugs and Other Crawling Insects: Lightly coat a thin layer of Natural-Guard® Crawling Insect Control in areas where these insects are found such as patics, outdoor sills, window and door frames. Dust around foundations, along ant trails and around sewer pipes and drains.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Use adequate ventilation and avoid breathing dust. Wear a suitable dust mask when using this product during prolonged exposure periods.
