HOUSE MICE MAY CONSUME A LETHAL DOSE IN ONE FEEDING WITH FIRST DEAD MICE APPEARING 4 OR 5 DAYS AFTER FEEDING BEGINS.

KILLS MICE

Bait Wedges/Triángulo con cebos

12 Bait Wedges/Triángulo con cebos
D-CON

KILLS MICE

19200 00101

IMPORANT:

1. Read all directions carefully before using.
2. Do not allow children to handle this product.
3. Store in a dry, cool place inaccessible to children and pets.

Retail Pack (12) x 3oz

LONG NAME:

1. FEEDING

Mice appear 4 or 5 days after feeding with first dead mice appearing 10 to 14 days after feeding.

2. MONITORING

Monitoring of prothrombin times. In severe cases, blood transfusions may be necessary.

3. VITAMIN K1

Vitamin K1 is antidotal at 5 mg/kg intramuscularly. Oral Vitamin K1 should be given for up to 30 days at 5 mg/kg (based on monitoring of prothrombin times). In severe cases, blood transfusions may be necessary.

4. HAEMORRHAGIC EPISODES

This material may reduce the clotting ability of the blood and cause bleeding.

5. DISPOSAL

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. If empty:

Non-refillable container. Do not reuse or refill container. Place in trash or offer for recycling if available. Store only in original container, in a dry place inaccessible to children and pets.
