For the Control of Carpenter Beetles, Clothes Moths, Mold and Rot in Wood Insulation

Active Ingredient: Disodium Octaborate Tetrahydrate (CAS No. 12280-03-4) 98%
Other Ingredient* 2%

*Contains 2% H2O - Absorbed Moisture

EPA Reg. No. 64405-4 Epa Est. No. 64405-4N-1

DOT WOOD PRESERVATIVE

A wood preservative for protection and treatment of lumber, including railroad ties, against fungal decay and wood destroying insects and termites

Net Weight 1850 lbs. (839.15 kilos)

Preparation of Solutions

For use with treated wood, use a 2% to 10% solution of Cellu-Treat in water. Use a 10% solution for the most difficult to treat species. If both sapwood and heartwood are included, use the schedule for heartwood to ensure complete treatment of the wood. The dip-diffusion of lumber should result in a retention of 0.3 lb/ft³ (4.0 kg/m³).

Dip-Diffusion Method of Application:

1. Cut clean wood to dimension and sticker before treating. If several species are being treated at once, choose the treatment schedule regarding treatment times, pressures and temperatures necessary for various wood species.

2. Solution preparation: Prepare fresh solution each day of more than 10% concentration in a clean bucket, using a maximum of 10% concentration. Solution concentrations shall be measured as active solution (Octaborate) concentration. The maximum amount of ready to use solution to be prepared each day shall be no more than one gallon of solution per 100 square feet of treated lumber surface area.

3. Cloud concentration of solution to be used in the final rinsing bowl of scouring and treat wet wood. For the most difficult to treat species. If both sapwood and heartwood are included, use the schedule for heartwood to ensure complete treatment of the wood. The dip-diffusion of lumber should result in a retention of 0.3 lb/ft³ (4.0 kg/m³).

4. Solution shall be prepared fresh daily.

10% Liquid Solution: In preparation treat solution, add approximately 85% of the required volume of water to the mixing vessel. While stirring, gradually add 1.5 pounds of Cellu-Treat for each gallon of treatment solution required. Add remaining water to the solution and stir well the entire product will be treated.

15% Liquid Solution: Prepare solution as above, but gradually add 1.5 pounds of Cellu-Treat for each gallon of treatment solution needed. Use this solution as soon as possible and do not store for extended length of time.

WARRANTY DISCLAIMER

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes and uses described elsewhere on this label. If terms are unacceptable, return the unused portion of the product to seller for a full replacement.

The terms of this Warranty Disclaimer and Limitation of Remedies and Warranties do not apply to insecticides, fungicides, herbicides, fungistats or similar products which are subject to the terms and conditions of any applicable governmental regulations, standards, specifications, or other legal requirements.

2. Replacement of amount of product used.

To the extent not prohibited by applicable law, the exclusive remedy for losses or damages resulting from this product (including direct, indirect, incidental, special, punitive, exemplary, or consequential damages, or loss of profits, revenue, or savings) shall be limited to the price of the product actually and lawfully paid. The total amount of loss or injury to treated wood shall be limited to the amount of goods actually and lawfully paid for.

The manufacturer disclaims all warranties, express or implied, for losses or damages resulting from the use of this product, except as expressly provided by applicable law. The manufacturer shall not be liable for any special, incidental, or consequential damages, or lost profits, revenue, or savings, and the use and presence of this product on the label in the manner specified is a material of trade, and the product is not intended to be for the use of general public. This product is not intended for use on human, animal, crop, livestock or fish.
