NATURAL INGREDIENTS

Activity Ingredient: 

- dimethyl benzyl ammonium chlorides ....................................... 49.5%
- Alkyl (60% C\textsubscript{14}, 30% C\textsubscript{16}, 5% C\textsubscript{18}, 5% C\textsubscript{18})

TOTAL: .......................................................................................... 100.0%

Sanitizer Ring for Use in Food Processing Industries

Solid, Time - Released, Drain Detergent -

DANGER: Pathways Solid Drain Sanitizer has been developed for use in drains and areas that receive occasional
environmental sanitation and control soil build-up in floor
drains and in drainage areas where wet conditions favor
microorganism growth and cause sanitation concern.

It is a violation of Federal law to use this product in a manner
than 2 pallets high, more than 2 pallets deep or in storage
areas.

FOR INDUSTRIAL USE

DIRECTIONS FOR USE

This product is easy to use and can be applied in one step. To
apply, remove the seal from the plastic container and
tear away outside wall from ring exposing product and creating a
convenient platform with one-quarter of old ring remains. Discard
old platform and place remaining product onto new ring.

To Instill:

- Position ring to allow maximum contact with water flow.
- Remove only for periodic drain cleaning and sanitizing. To
insure uninterrupted treatment, position new ring
when approximately
- one-half of last ring remains. Replace old ring
when approximately
- 13 layers per pallet.
- For service or additional information, call 1-800-35-CLEAN (352-5326).

For service or additional information, call 1-800-35-CLEAN (352-5326).

ONE QUARTER OF OLD RING REMAINS. DISCARD OLD PLATFORM AND PLACE REMAINING PRODUCT ONTO NEW RING.

ONE-HALF OF LAST RING REMAINS. REPLACE OLD RING WHEN APPROXIMATELY 13 LAYERS PER PALLET.

CONTACT SANITIZER TEST AND WAS PROVEN TO BE EFFECTIVE AGAINST A WIDE BROAD SPECTRUM OF GRAM NEGATIVE AND GRAM POSITIVE ORGANISMS FOUND ON ENVIRONMENTAL SURFACES REPRESENTED BY:

- Pseudomonas aeruginosa
- Listeria Monocytogenes
- Escherichia coli
- Staphylococcus aureus
