Concentrated Chlorinating Granules
PMS 298  PMS 485  PMS 301

See side panel for Precautionary Statements. Read all Precautionary Statements and First Aid statements before use. It can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your spa. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if Inhaled. Hazardous if swallowed or absorbed through skin. Irritating to nose and throat. Open in a well-ventilated area. Avoid breathing dust and fumes. Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist. Wear safety glasses, face shield or goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse. If swallowed, or absorbed through skin. Irritating to nose and throat. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

**KEEP OUT OF REACH OF CHILDREN**

**DANGEROUS HAZARD:**

**ACTIVE INGREDIENT:** Sodium dichloro-s-triazinetrione dihydrate 99%

**OTHER INGREDIENTS:**

Available Chlorine 56%

**TOTAL** 100%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**CONCENTRATION OR IMPROPER USE MAY CAUSE FIRE OR EXPLOSION OR THE RELEASE OF TOXIC GASES.**

**DO NOT ALLOW PRODUCT TO CONTACT ANY FOREIGN MATTER, INCLUDING OTHER WATER TREATMENT PRODUCTS.** If product is exposed to small amounts of water, it can react to cause explosion or the release of toxic gases. Do not mix this product with a small amount of water. Only add directly to your spa. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Read all Precautionary Statements and First Aid statements before use.

**FIRST AID:**

**IF IN EYES:** Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. Remove contaminated clothing and wash clothing before reuse. Call a poison control center or doctor if symptoms or toxicity are noted. If product is not contained, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water. Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water. Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. Remove contaminated clothing and wash clothing before reuse. Call a poison control center or doctor if symptoms or toxicity are noted. If product is not contained, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water. Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

**PHYSICAL and CHEMICAL HAZARD:**

DANGER. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Hazardous if swallowed or absorbed through skin. Irritating to nose and throat. • Open in a well-ventilated area. Avoid breathing dust and fumes. • Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist. Wear safety glasses, face shield or goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. • Remove contaminated clothing and wash clothing before reuse. Avoid spilling this product. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

**STORAGE & DISPOSAL:** Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and open flame and burning material (like a lighted cigarette).

For additional protection of skin, wear long sleeves and long pants. • Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. • Remove contaminated clothing and wash clothing before reuse. Avoid spilling this product. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

**ENVIRONMENTAL HAZARD:** This pesticide is toxic to fish and aquatic organisms.

**IN CASE OF EMERGENCY CALL:** 1-800-654-6911

**NET WEIGHT:** 1.75 LB (794 g)

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Re-entry into treated spas/hot tubs is prohibited above levels of 5 parts per million (ppm) free residual chlorine. Read all Precautionary Statements before use.

**FOR REGULAR DOSAGE**

1. Chlorinating: Add 1/2 oz. of this product per 500 gallons of water to the water prior to entering spa. Wait 5 minutes and then check the chlorine residual. The residual chlorine must read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2 to 3 ppm range, the spa or hot tub may be entered.

2. Maintaining: This product should be added daily or as necessary to maintain a 2 to 3 ppm residual chlorine reading. Frequent checks should be made of residual chlorine using a reliable test kit. This product should be broadcast over the surface of the water and allowed at least 5 minutes mix time before testing. Note: Heavy bather usage or the use of oils or lotion may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks of chlorine residual.

3. **Check pH:** The pH should be monitored with a reliable test kit and maintained in the 7.2 to 7.8 range for clean, sparkling water. The pH can be decreased by adding a suitable agent such as sodium bisulphate or increased by adding a suitable agent such as sodium bicarbonate.

4. Superchlorination: It is good practice to superchlorinate every 2 to 4 weeks to control odors and algae. To superchlorinate add 1 oz. of this product for every 500 gallons of water. Resume program when chlorine residual reads 2 to 3 ppm.

**PRECAUTIONARY STATEMENTS:**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER.** Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Hazardous if swallowed or absorbed through skin. Irritating to nose and throat. • Open in a well-ventilated area. Avoid breathing dust and fumes. • Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist. Wear safety glasses, face shield or goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. • Remove contaminated clothing and washing cloth before reuse.

**PHYSICAL and CHEMICAL HAZARD:**

DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter. Do not add water to this product. Add only into water. • Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. • Keep all foreign matter, including other water treatment products, away from this product. • Use only clean dry utensils to dispense this product. • Do not allow this product to contact other water treatment products. • Avoid spilling this product. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. • Store in a cool, dry, well-ventilated area away from heat and open flame. Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and open flame and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARD:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL:** Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Non-refillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

**HOW TO CALCULATE EPA CAPACITY**

**Shape of Spa or Hot Tub** | **Gallons Of Water** (Dimensions in ft.)
---|---
Rectangular | Average depth x average width x 7.5
Cylindrical | Diameter x diameter x average depth x 5.9
Oval with straight lines | Width x length x average depth x 6.7
Irregular | Consult spa or hot tub manufacturer

**STOP! Do Not Mix with other products or derivatives on label.**

**3510**
**3510WP**
**3505WP**

**EPA REG. NO. 7364-80-73081**
**EPA EST. NO. 42291-GA-1[GA]**
**EPA EST. NO. 58401-IL-1[ST]**
**EPA EST. NO. 66397-OK-01[OK]**
**EPA EST. NO. 3525-NJ-01[NJ]**
