How AMDRO® Fire Ant Bait Works:

1. This product is a bait. Worker ants carry the mound to food for the colony.
2. They eat and hide in the queen. AMDRO® Fire Ant Bait starts to kill worker ants immediately.
3. In about a week the queen is dead, which destroys the mound.

Caution Regarding AMDRO® Fire Ant Bait:

1. Excessive use on a public, private lawn or property is not economical or necessary. AMDRO® Fire Ant Bait contains insecticides that are toxic to mammals, birds, fish, aquatic invertebrates, and other aquatic life. AMDRO® Fire Ant Bait is for use only on lawns, landscaped areas, golf courses, commercial grounds, parks, noncropland areas, and other animal holding areas. AMDRO® /registered.alt may be applied to pastures and rangeland if used ONLY for COMPANION ANIMALS and other noncropland areas, as well as on grounds surrounding poultry houses (excluding runs and ranges) or corrals and other animal holding areas.
2. AMDRO® /registered.alt Fire Ant Bait is for use ONLY on lawns, landscaped areas, golf courses, commercial grounds, parks, noncropland areas, and other animal holding areas. AMDRO® /registered.alt Fire Ant Bait is for use ONLY on lawns, landscaped areas, golf courses, commercial grounds, parks, noncropland areas, and other animal holding areas.
