**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**General Weed Control:** To control most weeds for an extended period of time on non-cropland areas, including parking lots, fence rows, loading ramps, railroad sidings, storage yards, around buildings and industrial plant sites, apply 1 can per 65 sq. ft. To control annual weeds and grasses including foxtail, ryegrass, wild oats, crabgrass, cheatgrass, bromegrass, ragweed, lambquarter and turkey mullein, apply 1 can per 65-120 sq. ft. For other hard-to-kill perennial weeds and grasses, such as Johnson grass, saltgrass, bouncing bet, bracken fern and horsetail, apply 1 can per 65 sq. ft.

Remove protective cap. Invert can and point opening in spray tip towards weeds to be sprayed. Depress the cap on the side of the tip and spray weeds thoroughly. Be sure to completely wet weeds. Use in late spring when most weeds have appeared. The amount needed will depend on the area to be covered. Reapply as necessary. Frequency of application will depend on soil type, rainfall and other conditions. One can will treat approximately 90 square feet. For Annual and Perennial Weeds do not apply more than twice a year. Do not apply more than 2.0 lbs ae per acre per application. The minimum retreatment interval is 30 days. For woody plants: Do not apply more than one application per year. Do not apply more than 4.0 lbs ae per acre per year.

**Entry Restrictions:** Do not enter or allow people (or pets) to enter the treated area until dusts have settled. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

**Spray Drift Management:** A variety of factors including weather conditions (e.g., wind direction, wind speed, temperature, relative humidity) and method of application can influence pesticide drift. The applicator must evaluate all factors and make appropriate adjustments when applying this product.

**Susceptible Plants:** Do not apply in circumstances where spray drift may occur to food, forage, or other plantings that might be damaged or crops thereof rendered unfit for sale, use or consumption. Susceptible crops include, but are not limited to, cotton, okra, flowers, grapes (in growing stage), fruit trees (foliage), soybeans (vegetative state), ornamentals, sunflowers, tomatoes, beans and other vegetables, or tobacco. Small amounts of spray drift that might not be visible may injure susceptible broadleaf plants.

**Other State and Local Requirements:** Applicators must follow all state and local pesticide drift requirements regarding application of 2,4-D herbicides. Where states have more stringent regulations, they must be observed.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Do not use or store near heat or open flame.

**Pesticide Disposal:** Do not puncture or incinerate!

If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

**Personal Protective Equipment (PPE)**

All loaders, applicators, and other handlers must wear:

Long-sleeved shirt and long pants, shoes and socks, and chemical-resistant gloves made of barrier laminate or viton.
