Applications using UV cold foggers or fogging machines in outdoor spaces must wear:

- Long-sleeve shirt and long pants,
- Shirts plus socks, and
- Chemical-resistant gloves.

All other handlers, applicators, and other handlers must wear:

- Long-sleeve shirt and long pants,
- Shirts plus socks, and
- Chemical-resistant gloves for all handlers except for applications using motorized equipment, pilots, and baggage.

Chemical resistant apron for motorized equipment, and persons exposed to the concentrate and for handlers performing animal dip.

For use by federal, state, tribal, or local government officials responsible for public health or vector control, or by persons certified in the appropriate category or otherwise authorized by the state or tribal lead pesticide regulatory agency to perform adult mosquito control applications, or by persons under their direct supervision.

**APPLICATION INSTRUCTIONS**

Do not exceed 25 applications at 0.007 lbs. of permethrin per acre in any given season. More frequent treatments may be made to prevent or control a threat to public or animal health determined by a state, tribal or local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes or the occurrence of mosquitos-borne diseases in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort. Apply when wind speed is greater than 1 mph.

FLIT® 10EC Broad Spectrum Multi-Use Insecticide is designed for application as an Ultra-Low Volume (ULV) aerosol to control adult mosquitoes, flies, and in some situations, ants and other related insects. FLIT® 10EC is also recommended for application with mist blowers, backpack sprayers, hand-held sprayers, and low pressure hand sprayers for better or safer applications. FLIT® 10EC is used for control of antennal flies and mosquitoes, and flies and puff flies or disease vectors in areas such as but not limited to reclamation in industrial areas, urban areas, parks, campgrounds, wildlife habitats, golf courses, playgrounds, recreational and commercial waterways, marshes, and roadways and other adult mosquitoes and flies. Apply at a rate to exceed 0.07 pounds of permethrin per acre in any given 24-hour period.

In the treatment of cream, flaxseed, waste, pork, poultry and zoos and cove any exposed drinking water, skin or animal feed and animal feed before application.

FLIT® 10EC provides effective control of adult mosquitoes, black flies, gnats, biting and non-biting midges, stable flies, horse flies, deer flies, sheep flies, horn flies, and hussain flying insects such as houseflies.

**APPLICATION RESTRICTIONS**

- Do not breathe vapors or spray mist.
- Do not use in aircraft cabins.
- Use in a high roofed or thermal fogger is prohibited.
- Except when applying to livestock or as a wide area mosquito application, only protected handlers may be in the area during application.
- Do not apply when food is present.

**FIRST AID**

If you suspect exposure to the product, wash immediately with plenty of water for 15 to 20 minutes. Do not remove protective clothing unless authorized by the state or tribal lead pesticide regulatory agency to perform adult mosquito control applications, or by persons under their direct supervision.

**Gloves**

- Chemical resistant gloves.

**General Precautions**

- Do not give anything by mouth to an unconscious person.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Call a poison control center or doctor for treatment advice.

**APPLICATION SITES**

- **Pests Controlled**
  - Horn Flies, House Flies, Mosquitoes, and Gnats
  - Sheep "ticks" or keds

- **Use Directions**
  - Apply to the wet foliage with thoroughness, particularly with attention to tips, undernour, flanks, wings, and other infested areas.
  - Repeat treatment at intervals of 5 to 12 days for small insect populations or as needed when flies are emerging in large numbers.

- **Dilution**
  - Water: 1 part concentrate in 100 parts water (1.5 gallons per 1000 cubic feet)

- **Rate**
  - Water: 1 part concentrate in 100 parts water (1.5 gallons per 1000 cubic feet)

**USE RESTRICTIONS FOR WIDE AREA MOSQUITO USE**

- Do not use in residential or commercial establishments, except for the application of a看见的multiple products.
- Do not make applications during rain.
- Do not contaminate water by storage or disposal.
- Do not contaminate water, food or feed by storage or disposal.
- Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed.
- Do not use in livestock, poultry, or fish ponds.
- Do not apply this product to living water bodies, streams, or other aquatic habitats.

**RESTRICTIONS FOR OUTDOOR USE**

- Do not apply this product to living water bodies, streams, or other aquatic habitats.
- Do not apply this product to living water bodies, streams, or other aquatic habitats.
- Do not apply this product to living water bodies, streams, or other aquatic habitats.

**RESTRICTIONS FOR INDOOR USE**

- Do not apply this product to living water bodies, streams, or other aquatic habitats.
- Do not apply this product to living water bodies, streams, or other aquatic habitats.
- Do not apply this product to living water bodies, streams, or other aquatic habitats.

DISCLAIMS ANY LIABILITY WHATSOEVER FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. LIMITATIONS OF LIABILITY TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER IS FURNISHING AİKU OR ANYONE ELSE, WHOSE USE, MISUSE, OR FAILURE TO FOLLOW THE DIRECTIONS FOR USE OF THIS PRODUCT WOULD HAVE RESULTED IN DAMAGE.

**APPLICATION SITES**

- **Pests Controlled**
  - Horn Flies, House Flies, Mosquitoes, and Gnats

- **Use Directions**
  - Apply as a fog or fine mist, directing the spray toward the ceiling and upper corners until the area is filled with mist, using about 2.5 ounces per 1000 cubic feet of space. For best results, close doors and windows before spraying and keep them closed for ten to fifteen minutes. Vacate the treated area and ventilate before reoccupancy.

- **Dilution**
  - Water: 1 part concentrate in 100 parts water (1.5 gallons per 1000 cubic feet)

**APPLICATION SITES**

- **Pests Controlled**
  - Sheep "ticks" or keds

- **Use Directions**
  - Thoroughly wet all portions of the body by dipping or spraying with sufficient pressure and with a nozzle adjustment to give penetration of the wool. Treat at a rate sufficient to wet the animal.

- **Dilution**
  - Water: 1 part concentrate in 100 parts water (1.5 gallons per 1000 cubic feet)

**APPLICATION SITES**

- **Pests Controlled**
  - House Flies, Fruit Flies, Gnats, Skipper Flies, Mosquitoes, and Gnats

- **Use Directions**
  - Apply with mechanical or compressed air equipment (non-thermal) directed at the first few inches. Close doors and windows and shut off ventilating systems. When using an oil dilution for space spraying extinguish all flames and pilot lights. For rapid control of Houseflies, Fruit Flies, Gnats, Skipper Flies, Wasp, Hornets, Bees, Black flies, Small Flying Flies, direct spray at an upward angle distributing uniformly through the entire area at a rate of 1 ounce per 1000 cubic feet of space. Keep area closed for at least 10 minutes. Vacate after treatment and ventilate and sweep up dead insects before reoccupying.

- **Dilution**
  - Oil or Water: 1 part concentrate in 20 parts water (1.5 gallons per 1000 cubic feet)

**APPLICATION SITES**

- **Pests Controlled**
  - Horn Flies, House Flies, Mosquitoes, and Gnats

- **Use Directions**
  - For rapid kill of exposed or accessible stages of other insects named on this label, apply using conventional mechanical or compressed air (non-thermal) following directions for space spraying.
