NEOLONE™ M-10 INDUSTRIAL MICROBICIDE

MICROBIOCIDE

M-10 Industrial Microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in industrial and household products containing all purpose cleaning liquids, surfactants, and floor care products. It is also a preservative for industrial products used in maintaining, cleaning, and protecting metal parts in the aerospace, chemical, and automotive industries. It is effective in controlling the growth of algae and fungi in industrial and household products. It is compatible with all surfactant systems, is effective in maintaining the cleanliness of equipment, and is not detrimental to plant growth. It is non-toxic to humans and animals.

STORAGE AND DISPOSAL

PESTICIDE STORAGE

This product is toxic to birds and domestic animals. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified that the discharge effluent contains the pesticide. Do not contaminate water by cleaning of equipment or disposal of waste. For guidance contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Inspectorate. For guidance contact your State Pesticide Authority for approved alternative procedures.

PESTICIDE DISPOSAL

This product is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified that the discharge effluent contains the pesticide. Do not contaminate water by cleaning of equipment or disposal of waste. For guidance contact your State Pesticide Authority for approved alternative procedures.

ENVIRONMENTAL HAZARDS

MAY BE HARMFUL IF INHALED
MAY BE CAUSATIVE OF EYE DAMAGE
MAY BE CAUSATIVE OF SKIN REACTION
CAUSES EYE DAMAGE AND SKIN BURNS
CORROSIVE
MAY CAUSE ALLERGIC SKIN REACTION
MAY BE FATAL IF INHALED
MAY BE HARMFUL IF SWALLOWED OR ABSORBED THROUGH THE SKIN
