WARRANTY
To the extent consistent with applicable law, Suterra LLC warrants that this material conforms to the chemical description on the label and is reasonably fit for the purpose for which it is used in accordance with the Directions for Use. To the extent consistent with applicable law, Suterra LLC neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material. To the extent allowable by law, Suterra LLC’s maximum liability for breach of this warranty shall not exceed the purchase price of this product. To the extent consistent with applicable law, the buyer and user acknowledge and assume all risks and liabilities resulting from the handling, storage, and use of this material contrary to label instructions.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Caution: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Harmful if inhaled. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

Personal Protective Equipment (PPE): Applicators and other handlers must wear long-sleeved shirt and long pants, waterproof gloves, and shoes plus socks. Follow manufacturer’s instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID STATEMENT
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

IF ON SKIN OR CLOTHING: Wash thoroughly and use soap and water. Have person change clothes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. IF IN EYES: Call a poison control center or doctor for further treatment advice.

KEEP OUT OF REACH OF CHILDREN
CAUTION

A BIOCHEMICAL FOR THE MATING DISRUPTION OF THE CODLING MOTH (Cydia pomonella) and HICKORY SHUCKWORM (Cydia caryana)

ACTIVE INGREDIENT
(E,E) - 8,10 - Dodecadien-1-ol
Other Ingredients
TOTAL
CONTAINS: 25.0 fl. oz. (739ml)
4.14 g/a.l / fl. oz. (0.14 g/a.l/ml)
85.60%
100.00%

FAX: (541) 388-3705

EPA Reg.No. 56336-37
EPA Est. No. 56336-OR-1

BATCH CODE: See neck of bottle.

KEEP OUT OF REACH OF CHILDREN
CAUTION

APPLICATION NOTES: For best results, apply at the time or shortly before codling moths begin to emerge in the spring (biofix), or when the moths are first detected in pheromone traps such as BioLure®. Reapply as needed based on insect monitoring and scouting programs. The use of approved pheromone attractants improves the adherence to the leaf surface and even distribution of the product on plant surfaces. In the event of rainfall or overhead irrigation, re-treatment will be necessary to maintain effective mating disruption. The use of pheromone baited traps will be necessary to make this determination. This product only affects adult male moths and will have no effect on female moths, eggs or larvae. If application follows biofix or during the growing season, the field must be treated with insecticidal treatments that will effectively control hatchling larvae until egg laying by previously mated female moths has ceased to occur. In moderate to high insect pressure situations, supplemental insecticide applications during the season may be necessary to provide adequate protection to the developing crop. These supplemental insecticidal applications are to be made based on trap monitoring, field scouting, and appropriate degree-day models for the local growing area and must be timed to disrupt emerging larvae.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELS
Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For requirements specific to your State or Tribe, consult the agency responsible for regulating pesticide use.

AGRICULTURAL USE REQUIREMENTS: Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 190. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for personal protective equipment, health and emergency assistance, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and the restricted-entry interval. The requirements on this label are based on uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during application of this product. Do not enter or allow entry into treated areas during the restricted entry interval (REI) of 4 hours. PPE required for early entry to treated areas (that is, permitted under the Worker Protection Standard) is the same as for the pesticide exposure group (PEG). Contact the agency responsible for pesticide regulation.

REED RECOMMENDATIONS
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool place until used. Protect from freezing.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water when disposing of equipment wash water.

USER HANDLING: Nonreturnable container. Do not reuse container.

Plastic Containers: Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill container 1/4 full with water and re-agitate 1/4 full with water and rinse. Do not use equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.
