See precautionary statements on back of can.

DIRECTIONS FOR USE
FOR DISINFECTION OF INANIMATE SURFACES:
Spray disinfectant liberally over all surfaces, allowing to air dry.

DIRECTIONS FOR DISINFECTION OF HAIR CLIPPERS:
After each use, clean clipper blades to remove hair and other organic soil. With clipper turned off, hold dispenser upright 6 to 8 inches from blades. Spray teeth of clipper blades until wet. Keep surface wet for 12 minutes. Allow to air dry.

STORAGE:
DO NOT USE ON POLISHED WOOD FURNITURE OR RAYON FABRICS.

INFORMATION:
For more information go to www.P65Warnings.ca.gov.

ATTENTION:
This product has demonstrated effectiveness against Influenza A (H1N1) and is expected to inactivate all influenza A viruses including Pandemic 2009 H1N1 (formally called swine flu).

PERSONAL PROTECTION:
When handling items soiled with blood or body fluids, use appropriate barrier protection such as disposable latex gloves, gowns, masks and eye coverings.

DIRECTIONS FOR DISINFECTION OF HAIR CLIPPERS:
After each use, clean clipper blades to remove hair and other organic soil. With clipper turned off, hold dispenser upright 6 to 8 inches from blades. Spray teeth of clipper blades until wet. Keep surface wet for 12 minutes. Allow to air dry.

IF INHALED:
Remove from exposure. If symptoms occur, give artificial respiration, preferably mouth-to-mouth, and consult a physician.

IF IN EYES:
Hold eye open and rinse slowly and gently with water for 15-20 minutes. If irritation or swelling occurs, consult a physician.

IF INGESTED:
Do not induce vomiting. If vomiting occurs, consult a physician.

FIRST AID:
If the product is swallowed, call a Poison Control Center. If the product is inhaled, get fresh air; if symptoms occur, contact a physician.

DISPOSAL OF INFECTIOUS MATERIALS:
Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant.

DISPOSAL OF INJECTABLES:
Blood and other body fluids must be autoclaved and disposed of according to Federal, state and local regulations for infectious waste disposal.

CONTACT TIME:
Leaves surface wet for 10 minutes. After surface is cleaned, hold can upright and spray 4 to 6 inches from surface to be treated until surface becomes wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of 10 minutes prior to reusing.

FOR DISINFECTION OF INHABITANT SURFACES:
This disinfectant is an effective germicidal that kills Staphylococcus aureus, Salmonella enterica, Pseudomonas aeruginosa, Streptococcus pyogenes, Mycobacterium bovis (BCG) and Vancomycin Resistant Enterococcus faecalis (VRE).

This product is not to be used as a terminal sterilant/high-level disinfectant with its labeling.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
