FORMULA 3014

In Water-Soluble Bags
Controls bacteria, fungi, and algae in industrial cooling water systems and auxiliary water and waste water systems; controls slime-forming bacteria and fungi in industrial air washer systems.

FOR INDUSTRIAL USE ONLY

ACTIVE INGREDIENTS: 40.0%
INERT INGREDIENTS: 60.0%
TOTAL: 100.0%

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call an emergency responder or an ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

HOT LINE NUMBER

IN CASE OF AN EMERGENCY endangering life or property involving this product, call CHEMTREC at 1-800-424-9300 or Rocky Mountain Poison Control Center at 1-800-222-1222.

NOTE TO PHYSICIAN

Chemical eye burns may require extended irrigation. Obtain prompt consultation, preferably from an ophthalmologist. If laceration is present, suggest endotracheal intubation and esopha
gal control. Danger from lung aspiration may be weighed against toxicity if considering emptying the stomach. If burn is present, test as temporary burn, after decontamination, if specific anesthetic is indicated. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

NET CONTENTS: 25 TABLETS
NET WEIGHT: 11.023 LBS. (5 KG)

KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CORROSIVE • Causes irreversible eye damage • May be fatal if swallowed • Causes skin irritation • Harmful if absorbed through skin • Do not get in eyes, on skin, or on clothing • Do not breathe dust • When handling or using protective eyewear (goggles or face shield), wear long-sleeved shirt and long pants, socks, shoes and chemically resistant gloves • Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals • Wash thoroughly with soap and water after handling and before eating, drinking, smoking, gum, or using tobacco • Remove and wash contaminated clothing separately from other laundry before reuse.

Personal Protective Equipment

Applicants and other handlers must wear:
• goggles, overalls, long-sleeved shirt and long pants
• safety shoes
• gloves or face shields
• chemical-resistant gloves (such as neoprene, butyl nitrile, nitrile or rubber, etc.)

User Safety Requirements

Follow manufacturers’ instructions for cleaning & maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users must wash hands before eating, drinking, smoking, gum, or using the toilet. Users must remove clothing immediately if pesticides get inside. Wash thoroughly and put on clean clothing. Users must remove PPE immediately after handling this product.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment, or disposal of waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: To maintain product quality, store at temperatures below 30°C. Keep container tightly closed when not in use.

Note: Do not remove container(s) from container except for immediate use. When ready to use do not remove tablets from water soluble package.

Pesticide Disposal: Pesticide wastes are usually hazardous. Improper disposal of excess pesticide, spray drift, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal
Nonrefillable container. Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

INDUSTRIAL COOLING WATER SYSTEMS

Note: Tablets wrapped in water soluble packaging are ready for use and should not be removed from protective film. To prevent corrosion, place a tablet of FORMULA 3014 in Water-Soluble Bags in the hider provided (or equivalent) and suspend it in the water so the tablet is completely submerged. Additional tablets may be obtained from Garratt Callahan. FORMULA 3014 in Water-Soluble Bags is best used in the basin of the cooling water systems. Avoid areas of high velocity water flow. Avoid placing FORMULA 3014 in Water-Soluble Bags in direct sunlight.

To control bacteria, fungi, and algae in clean to moderately contaminated systems, add one tablet per 500,000 gallons of water in the system. Heavily contaminated systems may require two tablets per 500,000 gallons of water. Each tablet or group of tablets of FORMULA 3014 will provide approximately 3 weeks of control. Additional tablets of FORMULA 3014 per 500,000 gallons of water in the system every 3 weeks, or as needed to maintain control.

AUXILIARY WATER AND WASTE WATER SYSTEMS

Note: Tablets wrapped in water soluble packaging are ready for use and should not be removed from protective film. Place tablet in hider provided or equivalent. The hiders prevent direct contact with metal surfaces and keep tablets near the surface allowing easy observation. Additional hiders may be obtained from Garratt Callahan. FORMULA 3014 controls odour-forming and slim-forming bacteria, fungi, and algae in auxiliary water systems such as fire protection systems; pump or sump bays; waste water and waste material disposal; holding or recovery systems such as storage tanks, storage piles, associated piping, settling ponds or lagoons; transport spills or canals; and disposal wells. FORMULA 3014 should be added to the system at a rate of one tablet per 500,000 gallons of water in the system. Each tablet will provide approximately 3 weeks of control per 500,000 gallons of water.

INDUSTRIAL AIR-WASHER SYSTEMS

Note: Use in industrial air-washer systems that maintain effective mist eliminators. Tablets wrapped in water soluble packaging are ready for use and should not be removed from protective film. Place tablets in hider provided or equivalent. These hiders prevent direct contact with metal surfaces and keep tablets near the surface allowing easy observation. Additional hiders may be obtained from Garratt Callahan. FORMULA 3014 controls slime-forming bacteria and fungi, and algae in auxiliary water systems such as fire protection systems; pump or sump bays; waste water and waste material disposal; holding or recovery systems such as storage tanks, storage piles, associated piping, settling ponds or lagoons; transport spills or canals; and disposal wells. FORMULA 3014 should be added to the system at a rate of one tablet per 500,000 gallons of water in the system. Each tablet will provide approximately 3 weeks of control per 500,000 gallons of water.

Notice: Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.
