KEEP OUT OF REACH OF CHILDREN

WARNING

See below for First Aid and Precautionary Statements.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

Causes substantial but temporary eye injury. Do not get in eyes or on skin or clothing. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS

For external use on dogs only. Do not use on animals other than dogs. Do not use on puppies under seven weeks of age.

Do not get this product in the dog's eyes or mouth. As with any product, consult your veterinarian before using this product on dermatitis, skin fragility, or any animals, individual sensitivities, while rare, may occur after using ANY pesticidal product for pets. If signs persist, or become more severe, consult a veterinarian immediately. If your animal is on medication, consult your veterinarian before using this or any other product.

DO NOT USE ON CATS

Due to their unique physiology and lack of metabolism of certain compounds, this product must not be used on cats. If applied to a cat, it may cause systemic toxicity.

For consumer questions call 1-800-225-6826.
For medical emergencies call 1-800-422-9874.

Environmental Hazards

This product is extremely toxic to fish. Do not add directly to water. Do not contaminate water when disposing of product or packaging.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

- In eyes: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and continue rinsing eye.
- In mouth: Rinse with water for 15-20 minutes. Do not induce vomiting unless told to do so by the poison control center or doctor.
- If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.
- If on skin or clothing: Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.
- In Physicians: Treat the patient symptomatically.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not contaminate feed or food.

1. Use only on dogs. DO NOT USE ON CATS or on other animals.
2. Remove applicator tube from the package.
4. Turn the cap around and place other end of cap back on tube.
5. Twist cap to break seal, then remove cap from tube.
6. The cap should be standing for easy application. Part the hair on the dog's back, between the shoulder blades, until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.
7. Discard empty tube as described in Storage and Disposal.

GENERAL INFORMATION

Kills fleas which may cause flea allergy dermatitis (FAD). K9 Advantix® kills existing fleas on dogs within 12 hours. Reinfesting fleas are killed within 24 hours with protection against further flea infestation lasting four to 12 weeks. Pre-existing pupae in the environment may continue to emerge for six to 12 weeks or longer depending upon the climatic conditions. Larval flea stages in the dog's surroundings are killed following contact with a K9 Advantix® treated dog. K9 Advantix is waterproof and remains effective following a shampoo treatment, swimming, or after exposure to rain or sunlight. Monthly treatments are required for optimal control and prevention of fleas and ticks.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store in cool, dry place. Protect from freezing. Dispose of container. Do not store in metal containers. If mixed with or diluted with soap, do not store in metal containers.
