See below for First Aid and Precautionary Statements.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
Causes substantial but temporary eye injury. Do not get in eyes or on skin not clothed. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS
For external use on dogs only. Do not use on animals other than dogs. Do not use on puppies under seven weeks of age.
Do not get this product in dog's eyes or mouth. As with any product, consult your veterinarian before using this product on disabled, aged, pregnant or nursing animals. Individual sensitivities, while rare, may occur after using ANY pesticide product for pets. If signs worsen, or become more severe, consult a veterinarian immediately.
If your animal is an indoor cat, consult your veterinarian before using this or any other product.

DO NOT USE ON CATS
Due to their unique physiology and behavior, cats metabolize certain compounds. This product must not be used on cats.

For consumer questions call 1-800-225-6826.
For medical emergencies call 1-800-622-6974.

Environmental Hazards
This product is extremely toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of product or packaging.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If in eyes: Hold eye open and irrigate slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Call a poison control center or doctor for treatment advice.
If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.
Do not give anything by mouth to an unconscious person. If an inhaler or clothing: Take off contaminated clothing.
Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
In case of chemical burns: Wash with large amounts of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. In case of eye irritation: Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Consult a physician if irritation worsens or continues.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Storage: Shelves or a cool, dry place. Protect from freezing.
Disposal: Non-flammable container. Do not re-apply to new application cycles. Store in a cool, dry place. Place in trash or offer for recycling, if available. If8 applied to a pool, drain the pool. Do not apply to the pool or to the water supply. Do not contaminate water, food or feed by storage or disposal.

GENERAL INFORMATION
K9 Advantix® kills existing fleas on dogs within 12 hours. Reinfesting fleas are killed within 24 hours with protection against further flea infestation lasting four (4) weeks. Pre-existing pupae in the environment may continue to emerge for six (6) weeks or longer depending upon the climatic conditions. Larval flea stages in the dog's surroundings are killed following contact with a Ky Advantix® treated dog. Ky Advantix® is waterproof and remains effective following a shampoo treatment, swimming or other exposure to rain or sunshine. Monthly treatments are required for optimal control and prevention of ticks and lice.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Storage: Store in a cool, dry place. Protect from freezing.
Disposal: Non-flammable container.
