MICRON® 66 with Biolux®

PRODUCT DESCRIPTION: MICRON® 66 is a long-lasting Self Polishing Copolymer that is formulated to provide everyday polishing performance. This self-polishing coating technology uses a unique blend of carnauba and micronized silica that enables this product to provide a level of antifouling protection not previously available in any paint system. This technology also allows the boat to be easily hauled and launched without recoating. Because MICRON® 66 is used as a topcoat, it will become thinner with use, which will reduce drag and fuel consumption. The polishing action of MICRON® 66 also reduces build-up of old paint coatings and minimizes standing at reapplication.

MICRON® 66 is for use below the waterline on fiberglass, wood and properly primed metal boat hulls and tanks, in salt and fresh water. Do not use in fresh water for professional use only on pleasure craft in marinas.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PREPARATION

PREVIOUSLY PAINTED - GOOD CONDITION CONTAINING:

TBD Copolymer: Wet sand the surface with 60 grit sandpaper to a clean, firmly attached surface, wipe with Special Thinner 216 Apply one coat of Primer 1Y9A1.
Non-TBD Copolymer: Sand the surface with 80 grit sandpaper to a clean, firmly attached surface, wipe with Special Thinner 216 Apply one coat of Primer 1Y9A4.

Hard Antifouling: Sand the surface with 60 grit sandpaper to a clean, firmly attached surface, wipe with Special Thinner 216 Apply MICRON® 66. Apply MICRON® 68. Sand and wipe with Fiberglass Solvent 202 or use Fiberglass Surface Prep 1Y0A01.

BARE FIBERGLASS - POLYESTER OR VINYLSES (A):

SURFACE PREPARATION: Wipe surface with Fiberglass Solvent 202 or use Fiberglass Surface Prep 1Y0A01.

BAR MERO: Sand the surface with 80 grit sandpaper, wipe with Special Thinner 216. Apply the first coat 10% with Special Thinner 216 or Brush Ease 433. Fill any voids with Interlux® Steel Compound 201 if necessary. Repair Imperfections with Waterliner Sand and wipe clean. Apply 2 additional coats.

ALUMINUM AND STEEL: Contact the Interlux® Technical Service Department at 1-800-468-7589 for full information on how to properly prime underwater metal.

APPLICATION

For applications by residential (non-commercial) users:

- Do not apply by airless spray
- Do not apply more than one coat of this product within 24 hours
- Apply only in outdoor, non-enclosed areas

MIXING AND THINNING INSTRUCTIONS: Shake and mix well. Six continuously while mixing. Thin only as necessary with Interlux® Brush Ease 433 (not to exceed 10% by volume).

GENERAL APPLICATION PROCEDURES: Apply at 20-28 oz. of primer per sq. ft., applying thin layers, brush or roller, after priming. This product is not designed for spray application. Clear coats may increase drying times. Thinner 216 or Brush Ease 433 is to be used to improve handling. Apply an extra coat in high wear areas such as at the waterline, bow, and transom area.

THINNER: Special Thinner 216 or Brush Ease 433. Do not exceed 10% maximum.

CLEAN UP: Special Thinner 216 or Brush Ease 433.

THEORETICAL COVERAGE: 320 square feet per gallon, per coat at 2.0 D.F.T.

V.O.C. - less than 500 ppm.

APPLICATION TEMPERATURE: 40°F (5°C) and above (air and hull)

CLEAN UP: Follow tools, equipment, etc. with Interlux® Special Thinner 216 or Interlux® Brush Ease 433.

*More than 35 days have passed, paint wets out, lightly wet sand or use water and a soft brush to clean and remove the surface before overcoating or before immersion.

Cautions: If this product is to be sprayed, it must only be applied by competent professional spray applicators utilizing the proper solvent and safety equipment. Color difference may occur between actual paint and color swatch on front of can.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN

DANGER

Corrosive. Causes irreversible eye damage or skin burns. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing. Harmful if swallowed or inhaled. Do not breathe dust, vapor or spray mist. Remove contact lenses before washing. Wash hands with soap and water after handling.

Residential (non-commercial) users are advised to wear chemical resistant gloves, safety glasses, face shield, and Flame Resistant clothing. While removing existing paint by sanding or blasting, or applying new antifouling paint, commercial users must use a self-contained breathing apparatus or removing cartridge with a positive pressure approved for pesticides (HSL/NHSA approval number TC-233), or a canister approved for pesticides (HSL/NHSA approval number TC-141), or a HUS7 approved full face respirator with an organic vapor cartridge with a P-100 filter. Residential (non-commercial) users are advised to wear the same respirators, cartridges, and filters as required by commercial users.

FIRST AID

If Swallowed:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.
- Do not attempt to vomit.

If Inhaling:
- Hold the person fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Do not give anything by mouth to an unconscious person.
- Do not attempt to vomit.

If Injured:
- Hold the person fresh air.
- Do not give anything by mouth to an unconscious person.
- Do not attempt to vomit.

If on skin or clothing:
- Wash all contaminated clothing.
- Wash skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If Inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Do not give anything by mouth to an unconscious person.
- Do not attempt to vomit.

If Injured:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Other:
- Have the product container or label with you when calling a poison control center or doctor or going for treatment.

Note to Physician: Contains petroleum distillate - vomiting may cause aspiration pneumonitis.

ENVIRONMENTAL HAZARDS:
- This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of waste. Do not allow direct runoff during paint removal to enter water. Do not dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has not been notified in writing prior to discharge. Do not discharge effluent to sewer system without being notified by the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

FLAMMABLE OR CHEMICAL HAZARD: FLAMMABLE. Keep away from heat and open flame.

STORAGE AND DISPOSAL:
- Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Open dumping is prohibited. Pesticide, spray mixers, or rinses that cannot be used or chemically reprocessed must be disposed of according to procedures approved by Federal, State or local disposal authorities.

CONTAINER DISPOSAL: This product is not equivalent and dispose of in an approved landfill. Consult Federal, State or local disposal authorities for approved alternative processing.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL FREE: CHEM-CARE 1-800-424-5300 (DAY OR NIGHT)
- CHEMICAL ADVISORY: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-654-6513.
