MICRON® 66 with Biolux®

PRODUCT DESCRIPTION: Micron® 66® is a long-lasting Self-Polishing Copolymer that is formulated to impart a powerful self-pollishing performance, Anitsch's self-pollishing copolymer technology makes this product to provide a level of anti-fouling protection not previously available in any paint system. This technology also allows the boat to be painted and launched without recoating. Because Micron® 66® polishes itself, it will be smoother with use, which reduces drag and fuel consumption. The polishing action of Micron® 66® also reduces build-up of old-scale coatings and minimizes sanding at repainting. Micron® 66® is for use below the waterline on fiberglass, wood and properly primed metallic boat hulls and parts, in, out and inboard tanks, and any use in fresh water. For professional use only on pleasure craft in marinas.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PREPARATION

PREVIOUSLY PAINTED - GOOD CONDITION CONTAINING: Self Polishing Copolymer: Sand the surface with 80 grit sandpaper to a clean, firmly attached surface, with Special Primer 216. Apply one coat of Primonic WPAM, 200. Primonic WPAM-EX. Apply one coat of Primonic WPAM, 200. Non-TPP Copolymer: Sand the surface with 80 grit sandpaper to a clean, firmly attached surface, with Special Primer 216. Apply one coat of Primonic WPAM, 200. Hard Antifouling: Sand the surface with 80 grit sandpaper to a clean, firmly attached surface, with Special Primer 216. Apply Micron® 66®.

PREVIOUSLY PAINTED - POOR CONDITION: Remove all old antifouling paint using Interlux® 2996® and fiber glass primer sealer. Sand and wipe clean with fiberglass primer sealer 200. BARE FIBERGLASS - (POLYESTER OR VINYLSTER).

SURFACE PREPARATION: Wipe surface with fiberglass primer sealer 202 or use fiberglass primer sealer 200.

PREP 2934.

BARE FIBERGLASS - SANDING SYSTEM: Sand the entire surface with 80 grit sandpaper and wipe with fiberglass primer sealer 200. Repair any surface imperfections using Waterline, sand and wipe clean. BARE WOOD: Sand the surface with a 80 grit sandpaper. Wipe the surface with Special Primer 216. Apply Micron® 66®

ALUMINUM AND STEEL: Contact the Interlux® Technical Services Department at 1-800-466-7568 for full information on how to properly prime underwater articles.

APPLICATION

For applications by residential (non-commercial) users:
- Do not apply by airless spray.
- Do not apply more than one coat of this product within 24 hours.

APPLICATION PROCEDURES:
- Mix and Thinning Instructions: Follow directions for primer.
- Clean UP: Use primer 216 or Brush-Ease 433.

THEORETICAL COVERAGE: 324 square feet per gallon, per coat of 2.0 mil D.F.T.

V.O.C.: less than 253 grams/liter

APPLICATION TEMPERATURE: 40°F (5°C) and above (as printed and bull)

Dry Time Chart

Temperature (°F) | 40°F | 50°F | 60°F | 75°F | 90°F

Total Time | 12 Hours | 8 Hours | 4 Hours | 3 Hours | 2 Hours

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

KEEP OUT OF REACH OF CHILDREN

DANGER:
Corrosive. Causes irreversible eye damage or severe burns. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing. Harmful if swallowed or inhaled. Do not breathe dust, vapor or spray mist. Remove container and wash cloth and skin with soap and water after handling. Use and store away from children. Remove clothing,if the product is a composition of an organic palladium or removing cartridge with a prefilter approved for pentadecane 22630, or a canister approved for pentadecane 22630, with a 210° prefilter. Residential (non-commercial) users are advised to work the same respirators, cartridges, and prefilters as required by commercial waterfowls.

FIRST AID IF SWALLOWED:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

IF IN EYES:
- Hold open eyelids and rinse slowly and gently with water for 15-20 minutes.
- Call a poison control center or doctor for further treatment advice.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IN CASE OF FIRE:
- Do not use water, foam, or carbon dioxide (CO₂) for extinguishing.
- Use dry powder (Class B), and water mist

INDICATION OF OVEREXPOSURE:
- If you feel any discomfort, call a poison control center or doctor for further treatment advice.

OTHER:
Have the product container or label with you when calling a poison control center or doctor or going to treatment.

PRECAUTIONS TO AVOID DANGERS

Note to Physician: Contains potassium distearate - vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS: This material is toxic to fish. Do not apply directly to water by cleaning of facilities or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit.

PHYSICAL OR CHEMICAL HAZARD: FLAMMABLE.

STORAGE AND DISPOSAL: Do not store water, food or feed by storage or disposal.

Pesticide disposal: Pesticide wastes are toxic. Open dumping is prohibited. Pesticide, mixtures, or materials that cannot be used or chemically reprocessed should be disposed of according to procedures approved by Federal, State or local disposal authorities.

CONTAINER DISPOSAL: Dispose of container in an approved landfill. Consult Federal, State or local disposal authorities for approved alternatives.

FOR CHEMICAL EMERGENCY, CALL 911, EXPOSURE OR ACCIDENT. CALL TOLL FREE: 1-800-404-9440 (DAY OR NIGHT).

MEDICAL ADVICE: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-555-6600.
