Reserve—A bromide solution for use with Renew as part of a system for disinfection of water in spas.

Reserve is a clear solution of bromide salts which remain as a stable bank in the spa or hot tub water until Renew is added. Reserve has no disinfectant properties, and it is only when Renew is added that bromine is released in water containing Reserve. When used as directed, the Reserve & Renew® System provides chlorine-free sanitizing.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reserve should be added when the spa or hot tub is filled and will be there to maintain a bank of bromide in the water.

Initial Start Up:
1. Treat the spa or hot tub with Metal Gon according to its label directions.
2. Add Reserve (4 oz./250 gal.) directly into the spa or hot tub. Circulate the water while adding Reserve to assure rapid and thorough distribution.
3. Add Renew to activate the bromide bank for a bromine residual.
4. Test the bromine residual at least once every day with a bromine/pH test kit. The bromine residual must be between 1-3 ppm for residential spas or hot tubs and 3-5 ppm for commercial installations.

Maintenance: Weekly, thereafter, add Reserve (1 oz./250 gal.) to maintain a sufficient bank of bromide in the water.

NOTE: Heavy usage, or the long time of length of time the spa/hot tub is in use may result in depletion of bromide and require additional dosages of Renew and/or Reserve to maintain the desired bromine residual. Never mix any chemicals with each other before adding to the spa or hot tub water. Change water monthly or as needed to maintain water quality.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash with soap and water after handling.

FIRST AID
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL
Store in original container in a cool, dry place. Do not reuse empty bottle. Rinse thoroughly before discarding in trash.
