Zep HITMAN DM™ - INSECTICIDE

For Indoor and Outdoor Use • Keeps Killing for up to 4 Months • Ready-To-Use • Water-Based

TOTAL:
INDOORS:
- Cockroaches (including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains), ants, booklice, boxelder bugs, centipedes, crickets, dermestids, fleas, flies, palmetto bugs, silverfish, sowbugs, ticks and waterbugs: Apply as a spot and crack & crevice treatment to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinet, sinks and stoves, the under sides of shelves, drawers, bookcases, and similar areas. Cover all food handling surfaces and cover or remove all food and cooking utensils or wash them thoroughly and let them air dry. Apply to cracks, fissures, and crevices in an area. Avoid spilling on carpet, don’t spill on treated wood floors. Apply to clothing.

- Ants: Spray ant trails and around doors and windows and other places where ants enter the house. Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood though existing openings.

- Ticks (including ticks that may cause Lyme disease), and Fleas on Surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters to 3 feet. Apply to outside surfaces of buildings where insects tend to congregate. Exposed food should be covered or removed.

- Wasps, Mud Daubers, Hornets, Yellow Jackets and Bees: Spray nests and other surfaces where bees may nest. Application should be made late in the evening when insects are at rest.

OUTDOORS:
- Control of building infestation to ants, clover mites, crickets and sowbugs or pillbugs: Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply to outside surfaces of buildings where insects tend to congregate. Spray areas including but not limited to screens, window frames, eaves, porches, patios, garages, and refuse dumps.

- CRAWLING INSECTS: Ants, cockroaches including Asian cockroaches, centipedes, crickets, mole crickets, water bugs and silverfish. Spray infested surface of patio or picnic area. Also spray legs of tables and chairs.

- ANTS: Spray ant trails and hills. If nest can be located, spray surface of nest until wet.

- Lone Star Ticks, Dog Ticks, Crickets and Fleas: Apply thoroughly to infestation in bushes, grass or weeds.

- Spiders: Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

- Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks: Apply around doors and windows and other places where these pests may enter premises; Treat baseboards, storage areas and other locations where these pests are found.

- FLYING INSECTS: Houseflies, gnats, mosquitoes and small flying moths: Spray localized resting areas, such as under eaves, porches, inside surfaces or window and door frames, surfaces around light fixtures and cords, railings, etc. and anywhere these insects may rest. Insects coming to rest on treated surfaces will be killed.

- Bedbugs: Remove linens and wash before reuse. Lightly spray mattresses, especially tufts, folds and edges. Apply to the interior of the frame. Allow to dry before remaking bed.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuf or revisit this container. Offer for recycling, if available. Clean container promptly after emptying.

CONTAINERS GREATER THAN 5 GALLONS — Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank and store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

CONTAINER SIZE — GALLON:

- Do not apply this product in or on electrical equipment due to the possibility of fire hazard.

- Apply to insect infestations in attics, basements, bathrooms, boats, cabinets, campers, cars, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play areas, porches, recreational vehicles, rooms, solariums, storage areas, sunrooms, utility rooms and verandas. Do not use in commercial food handling establishments, restaurants or other places where food is commercially prepared, processed, or served.
