NON-CROP WEED CONTROL - INDUSTRIAL USE ONLY

This product is a non-selective granular herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-crop areas such as rights-of-way for pipelines, utility, highway, and railroad; and industrial areas such as airports, petroleum tank farms, lumberyards, and plant sites. 200 to 400 pound applications of this product per acre usually result in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil type, and other conditions.

This product should be applied as furnished with a seed spreader, a fertilizer spreader, a shaker-type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated. For control of annual and most perennial weeds and grasses, apply this product at the rate of 200 to 400 pounds per acre, on smaller plots, 0.5 to 0.8 pound of product per 100 square feet. Repeat spot treatment may be required when deep-rooted perennial weeds are present. To obtain best results, this product should be applied to the ground where it will be absorbed by the roots.

Applications made early in the season have been found to give results superior to applications at a later seasonal date. This product may, however, be applied at any time of the year. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult State Agricultural Experimental Stations or Extension Service weed specialists for recommendations as to use in their particular area.

IMPORTANT (Not for Residential Use): Do not apply on or near valuable woody or herbaceous property on or areas where their roots may extend because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment.

PESTICIDE STORAGE: Always store pesticides in a secured warehouse or storage building. Do not store near open containers of fertilizer, seed or other pesticides.

PESTICIDE DISPOSAL: Open dumping is prohibited. Wastewater resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. Place in a closed, labeled container for proper disposal.

For nonrefillable bags of granular or dry formulation

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely fill this bag into application equipment, then offer for recycling if available. Disposal of the bag in a sanitary landfill or by incineration on, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
