Precautionary Statements

Hazards To Humans and Domestic Animals

Dangers: WEEVIL-CIDE® Pellets or dust may bat or fall if spilled. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke while handling WEEVIL-CIDE® Pellets or dust. Inhalation, ingestion or absorption through the skin can be dangerous. Do not inhale gas or vapor formed when handling WEEVIL-CIDE® Pellets or dust. Infiltration of gas through the skin can cause acute or chronic poisoning. Contact your physician or a Poison Control Center immediately if you are exposed or suspect exposure. Inhalation, ingestion, or absorption of gas or vapor can cause acute or chronic poisoning. Inhalation of gas can cause irritation of the respiratory tract or respiratory distress. Ingestion of gas can cause nausea and vomiting. Absorption of gas or vapor can cause irritation of the skin, eyes, or respiratory tract. Absorption of gas or vapor by the skin can cause acute or chronic poisoning.

Physical and Chemical Hazards

Aluminum phosphide WEEVIL-CIDE® Pellets and partially spent dust will release phosphine gas if exposed to moisture or if stored in water or wetlands. Do not contaminate water by cleaning equipment or disposal of wastes.

Other Hazards

WEEVIL-CIDE® Pellets or dust may be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke while handling WEEVIL-CIDE® Pellets or dust. Inhalation, ingestion or absorption through the skin can be dangerous. Do not inhale gas or vapor formed when handling WEEVIL-CIDE® Pellets or dust. Infiltration of gas through the skin can cause acute or chronic poisoning. Contact your physician or a Poison Control Center immediately if you are exposed or suspect exposure. Inhalation, ingestion, or absorption of gas or vapor can cause acute or chronic poisoning. Inhalation of gas can cause irritation of the respiratory tract or respiratory distress. Ingestion of gas can cause nausea and vomiting. Absorption of gas or vapor can cause irritation of the skin, eyes, or respiratory tract. Absorption of gas or vapor by the skin can cause acute or chronic poisoning.

First Aid: Symptoms of exposure to this product at high concentrations include headaches, dizziness, nausea, difficulty breathing, vomiting, and diarrhea. In all cases of overexposure get medical attention immediately. Treat specifically with supportive care.

Precautionary Statements

General Information:

WEEVIL-CIDE® is a fumigant which when applied according to label instructions is activated by the formation of phosphine gas.
