PRECAUTIONARY STATEMENTS

Hazards To Humans and Domestic Animals

DANGER: WEEVIL-CIDE® Gas Bags or dust may be fatal if inhaled. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke while handling aluminum phosphide fumigants. When a sealed container is opened, allowing material to come in contact with moisture, water or acids, toxic phosphine gas will be released. If a gas leak is detected, appropriate emergency procedures, refer to the section on Industrial Hygiene Monitoring in the Applicator’s Manual.

Physical and Chemical Hazards

Aluminum phosphide WEEVIL-CIDE® Gas Bags and partially spent dust will release phosphine gas if exposed to moisture. WEEVIL-CIDE® Gas Bags will not normally give off any gas until the phosphine has been exposed to moisture, usually for several hours. This will cause a gray to pinkish powder to be formed. The dust or fumes from residual aluminum phosphide in the sealed container may ignite on contact with moisture, water or acids. Residual aluminum phosphide dust can be ignited by friction or sparks. If ignited, it will give off phosphine gas, which is toxic and flammable. Phosphine gas is flammable in air in the proportion of 20:1. When ignited, it burns with a bluish flame and gives off phosphoric acid fumes. Phosphine gas is also toxic to wildlife. Non-target organisms exposed to phosphine gas in burrows will be killed. Do not eat, drink or smoke while handling aluminum phosphide dust. When a sealed container is opened, allowing material to come in contact with moisture, water or acids, toxic phosphine gas will be released. If a gas leak is detected, appropriate emergency procedures, refer to the section on Industrial Hygiene Monitoring in the Applicator’s Manual.

Environmental Hazards

This product is toxic to bees. Non-target organisms exposed to phosphine gas in burrows will be killed. Do not apply directly to water or wetlands (swamps, bogs, marshes, and ponds). Do not contaminate water by clearing of debris surrounding ponds. Physical and Chemical Hazards

For relief of symptoms, contact a physician. For emergency treatment, contact Poison Control Center, 1-800-222-1222 (in the United States) or 1-800-268-1156 (in Canada). For medical assistance in the United States, call 1-800-945-9281.

Note to Physician:

GAS BAGS

For sale to dealers and Dealers and Certified applicators only. For use by Certified Applicators or persons under their direct supervision, and only by those users covered by the Certification Certificate. Refer to the directions in the Applicator’s Manual for the requirements of the physical presence of a Certified Applicator.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storing pesticides in the same areas used to store these commodities.

Storage Instructions

1. Store WEEVIL-CIDE® Gas Bags in a dry, well ventilated area away from heat, from which cold, hot as a storage temperature. Do not store in forests, woods, or other natural areas.

2. Do not store in buildings where human or domestic animals reside. Keep out of reach of children.

3. WEEVIL-CIDE® Gas Bags are supplied in gas-tight, malleable aluminum cans. Do not expose the product to atmospheric moisture any longer than is necessary and seal tightly before returning flasks to storage.

Pesticide Disposal

Do not contaminate water, food or feed by storing pesticides in the same areas used to store these commodities.

Storage Instructions

1. Store WEEVIL-CIDE® Gas Bags in a dry, well ventilated area away from heat, from which cold, hot as a storage temperature. Do not store in forests, woods, or other natural areas.
