DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

For use against pocket gophers in lawns, golf courses, and other non-crop areas. Do not apply in gardens and areas where food or feed may be contaminated. Only apply the bait underground. Collect and bury all dead animals found above the ground.

SPECIFIC DIRECTIONS FOR POCKET GOPHERS

Burrowing pocket gophers (Thomomys spp and Geomys spp) throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. With a long-handled spoon carefully remove the plug. Insert a teaspoonful of Gophertox as far down as possible.

Reclose opening, being careful not to cover bait with soil.
**STORAGE & DISPOSAL**

Storage: Store and transport only in an upright position, in the original container, and in a dry place inaccessible to children and pets.
Disposal: *If empty* — Nonrefillable container. Do not reuse or refill empty container. Place in trash or offer for recycling if available. *If partially filled* — Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

---

**FIRST AID**

Any person applying zinc phosphide products and experiencing signs and symptoms such as nausea, abdominal pain, tightness in the chest, or weakness should be seen by a physician immediately. Have the label with you when obtaining treatment advice.

<table>
<thead>
<tr>
<th>If swallowed</th>
<th>Call a poison control center, or doctor, or 1-800-858-7378 immediately for treatment advice. Do not give any liquid to person. Do not induce vomiting unless told to do so by the poison control center or doctor.</th>
</tr>
</thead>
<tbody>
<tr>
<td>If on skin or clothing</td>
<td>Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center, or doctor, or 1-800-858-7378 immediately for treatment advice.</td>
</tr>
<tr>
<td>If inhaled</td>
<td>Move person to fresh air. If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center, doctor, or 1-800-858-7378 immediately for treatment advice.</td>
</tr>
<tr>
<td>If in eyes</td>
<td>Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center, doctor, or 1-800-858-7378 immediately for treatment advice.</td>

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Keep away from humans, domestic animals, and pets. May be fatal or harmful if swallowed or inhaled. Avoid skin contact. Do not breathe dust. Avoid contamination of feed or foodstuffs. Avoid contact with acids.

ENVIRONMENTAL HAZARDS
This product is toxic to birds and other wildlife. Do not allow bait to be exposed on soil surface. Do not apply where runoff is likely to occur. Keep out of any body of water.

To the extent consistent with applicable law, the buyer must assume all responsibility for use of this product when not used in strict accordance with directions or established sale practice, or when used under abnormal conditions not reasonably foreseeable to the seller.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.
Bonide Products, Inc. offers a complete line of gardening products. Insect Control, Disease Control, Weed Control, Repellents, Specialty Fertilizers and Plant Nutrients.

Ask your local garden center about these additional Bonide® Mole and Gopher Control products:

**Bonide® Moletox® Baited-gel**

-The patented syringe injector system allows you to deliver pre-measured doses or bait directly into the tunnel. One syringe covers up to 10,000 sq. ft.
Bonide® MOLEMAX®
Mole & Vole Repellent
-A granular product that provides an effective means of repelling burrowing animals from desirable turf and ornamental areas. Can also be used when planting bulbs to prevent rodent depredation.
Mole Trap
-These easy to set traps may be used over and over, providing effective, economical mole control. Sturdy metal construction lasts for years.

Rodent Smoke Bombs
-An effective, quick and reliable product for Moles, Gophers, Woodchucks, Rats, Skunks, and Ground Squirrels. The smoke will penetrate deeply into tunnels to do the job.
Some Bonide® products are not available or registered for use in some states. Ask your local garden center which products are available in your area.

Thank you for buying Bonide® Products.
