WASPS AND BEES: It is generally advisable to treat wasp and bee nests in the evening when insects are less active and have returned to the nest. Wear protective clothing if deemed necessary to avoid stings. Using a hand or power duster (Acrodis or similar equipment) or other suitable means, with extension tubes if necessary, thoroughly dust nest, entrance and surrounding areas where insects alight. Nests in wall voids can be located by listening with your ear against the wall. Drill a hole in the area, blow dust in and rescale. For ground wasps, dust entrance and surrounding areas. For best results check nests carefully one or two days after treatment to ensure complete kill, then remove and destroy nest to prevent emergence of newly-hatched insects. If removal is not feasible, retreat the nest, if necessary. Do not use this product to treat overhead nests.

OUTDOOR USE
Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops.

PERIMETER TREATMENT: Use this product as a residual treatment for control of ants, bees, centipedes, cockroaches, crickets, firebrats, fleas, ground beetles, millipedes, scorpions, silverfish, slugs, sowbugs, spiders, ticks and wasps. Make a residual treatment around windows and doors, porches, screened-eaves, patios, garages, under stairways, in crawl spaces, and other areas where pests hide. To help prevent the invasion of buildings and structures by these pests, apply thoroughly and uniformly to the foundation and crawl spaces where pests are active and may find entrance.

STORAGE AND DISPOSAL
Storage: Store and transport in an upright position. Store product in original container in a cool, dry, locked place out of reach of children.
Disposal: If empty - Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: May be harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.
ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Use with care when applying in areas adjacent to any body of water.

Notice: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read the entire Directions for Use and Precautions before using this product. This product is a ready-to-use insecticide dust which exhibits effective long-term and long-lasting control against the pests listed when used according to label directions. This product can be used for long-lasting pest control in and around homes and their immediate surroundings. Permitted areas of use include but are not limited to:
- houses
- animal quarters
- apartments
- household greenhouses
- ornamentals
- mobile homes and recreational vehicles

This product is intended for application with a hand duster to hiding and runways areas and other places where insects are found.

INDOOR USE
In living areas, make applications in such a manner as to avoid deposits on exposed surfaces or introducing the material into the air. To avoid the possibility of staining, do not use on carpets, upholstery and other fabrics. Do not apply as a broadcast application indoors.

To apply insecticide directly into cracks and crevices, use a bulbous duster, or other suitable equipment. Apply lightly and uniformly to infested areas. Pay particular attention to cracks and crevices; service ducts (excluding heating, ventilation, and air conditioning); false floors and ceilings; wall voids; around electrical and telephone fittings and equipment; around water and sewer pipes; under and behind cabinets, refrigerators and sinks, around windows and door frames; along baseboards; in attics and crawlspaces. The amount to be applied will vary with the site, but usually be in the range of 2-3 grams of product per square yard (0.5 lbs. per 1,000 sq. ft.).

TERMITES, CARPENTER ANTS AND CARPENTER BEES: Apply to voids or channels in damaged wood members of a structure; to cracks, spaces or bearing joints between wooden members of a structure; or between such members and the foundation; and in locations vulnerable to termite attack. This dust can be applied in attics and crawl spaces to prevent entry of dry and Formosan termites at a rate of 0.5 lb. per 1,000 sq. ft. of floor area. In these treatments, all vents and blowers should be closed. Inspect at 6 months and one year to ensure that colony has been killed.

The purpose of such applications of this product is to kill workers or winged forms of subterranean termites which may be present in the treated channels at the time of treatment. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but merely a supplement. For active termite infestations, get a professional inspection.

ACTIVE INGREDIENT:
Fumagillin: 0.06%

OTHER INGREDIENTS: 99.94%

TOTAL: 100.00%

EPA Est. No. 647-1
EPA Reg. No. 5-441

Keep Out Of Reach Of Children
CAUTION
(See side panels for additional Precautionary Statements and First Aid)
Net Weight 10 oz. (283.5 g)
