PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PECTISEDE STORAGE: Store only in original container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

PECTISEDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Non-Refillable Container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Fill the container ¼ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.

Hospital-use disinfectant. Institutional disinfectant. This product is for use on hard, non-porous surfaces in Hospitals, Nursing homes, Medical and Dental offices and clinics, Operating rooms/threaters, Medical research facilities, Correctional facilities, Athletic facilities, Gyms, Funeral homes, Salons, Tattoo parlors (Not for use on needles or other skin piercing instruments), Hotels, Institutional kitchens, Fast food operations, Federally inspected meat and poultry plants, Food handling and process areas, Schools, Colleges, Sports arenas, Convenience stores, Restrooms, Poultry Premise, Swine Premise, Veterinary clinics, Animal research centers, Kennels, Grooming establishments, Animal housing facilities, Zoos, and other animal care facilities. This product when used as directed is formulated to disinfect, clean, and deodorize on washable hard, non-porous surfaces such as: Hospital beds, examining tables, operating tables, medical equipment surfaces, counters, walls, ceilings, bathroom fixtures, kennel/cage floors, examination tables, hatchers, setters, trays, racks, egg flats, chick boxes, egg cases, vans and trash containers, seed hoppers, veterinary equipment, carts, and automated tray, rack and buggy washers, egg receiving and egg holding areas, whirlpools, athletic mats, exercise equipment, and locker room areas, food preparation and storage areas and other hard, non-porous surfaces.

DISINFECTION PERFORMANCE IN INSTITUTIONS (Hospitals, Nursing Homes, and Other Health Care Facilities)
This product kills the following bacteria in 10 minutes at 0.5 oz. per gal. of water (850 ppm active) and 5% soil on hard, non-porous surfaces:

VIRUCIDAL* PERFORMANCE: This product kills the following viruses in 10 minutes at 0.5 oz. per gal. of water (850 ppm active) and 5% soil on hard, non-porous surfaces: Avian Influenza A Virus (H5N1), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Coronavirus, Human Immunodeficiency Virus Type 1 (HIV-1), Influenza A (H1N1) Virus, Influenza A/PR (H1N1) Virus, Influenza Virus A/Brazil Virus, Vaccinia Virus.
Uniquat Neutral Disinfectant 256

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Before using this product in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from the room or carefully protected.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or, (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

FOR USE AS A ONE-STEP, GENERAL, HOSPITAL DISINFECTANT, VIRUCIDE*, CLEANER:

1. Pre-clean heavily soiled areas.

2. Apply use solution of 0.5 oz. of this product per gal. of water to disinfect hard, non-porous surfaces with a sponge, brush, cloth, mop, mechanical spray device, coarse pump or trigger spray device. For spray applications, spray 6-8 inches from surface. Do not breathe spray.

3. Treated surfaces must remain wet for 10 minutes.

4. Allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.

5. Prepare a fresh solution daily or when visibly dirty.

BLOODBORNE PATHOGEN INSTRUCTIONS:

*KILLS HIV, HBV AND HCV ON PRE-CLEANED HARD, NON-POROUS SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of hard, non-porous surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV and HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Wear protective latex gloves, gowns, masks and eye protection.

Cleaning Procedure: Blood and other body fluids containing HIV-1, HBV & HCV, must be thoroughly cleaned from hard, non-porous surfaces and objects before application of this product.

Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

Contact Time: Allow hard, non-porous surfaces to remain wet for 10 minutes for all organisms.

See carton insert for specific Directions For Use and list of organisms product is effective against.
INSECTICIDE: Store only in original container. Keep this product under locked storage sufficient to prevent unauthorized access by children and pets.

PESTICIDE STORAGE:
Do not contaminate water, food, or feed by storage and disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Control Authority. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) causes severe or irreversible damage to the body but which does not ordinarily have a blood barrier or otherwise enter normally sterile areas of the body. This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

FOR USE AS A ONE-STEP, GENERAL, HOSPITAL DISINFECTANT, VIRUCIDE*, CLEANER:
1. Pre-clean heavily soiled areas.
2. Apply use solution of 0.5 oz. of this product per gal. of water to disinfect hard, non-porous surfaces with a sponge, brush, cloth, mop, vacuum, mopping machine, coarse pump or trigger spray device. For spray applications, spray 6-8 inches from surface. Do not spray inside. 
3. Treated surfaces must remain wet for 10 minutes. 
4. Allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.
5. Prepare a fresh solution daily or when visibly dirty.

BLOODBORNE PATHOGEN INSTRUCTIONS:
• KILLS INFECTIONOUS MATERIALS IN STANDARD, CLEANED, NON-POUROUS SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of hard, non-porous surfaces/object with blood or body fluids and in which the surfaces/object likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV and HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:
Personal Protection: Wear protective latex gloves, gowns, masks and eye protection. 
Cleaning Procedure: Blood and other body fluids containing HBV, HBV & HCV must be thoroughly cleaned from soiled or exposed surfaces with a suitable detergent and water. If soiled with blood or body fluids that are contaminated with blood from a person infected with HIV-1, HBV, or HCV, use a suitable detergent and water. In addition, if the blood or body fluids are contaminated with blood from a person infected with HBV or HCV, disinfect the surfaces/object with a suitable disinfectant. 
Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.
Contact Time: Allow hard, non-porous surfaces to remain wet for 10 minutes for all organisms.

SURGICAL INSTRUMENT PRESOAK: Add 0.5 oz. of this product per gal. of water (850 ppm active). Place pre-cleaned instruments in solution to presoak surgical instruments for a minimum of 10 minutes, then proceed according to normal sterilization protocol.
Note: Plastic instruments can remain immersed until sterilization procedure. Metal instruments must be removed after 10 minutes, rinsed, dried, and kept in a clean non-contaminated receptacle until sterilization.

For disinfecting, please refer to the product label for further instructions.

FOR DISINFECTING USE ON HARD, NON-POUROUS SEATED BARRIER GLASS BATH AND THERAPY EQUIPMENT:
Drain the water from the unit. Pre-clean heavily soiled surfaces to remove body oils, dead tissue, soil and all other contaminants. Use a sponge, brush, cloth, mop, vacuum, mopping machine, coarse pump or trigger spray device. After cleaning, rinse thoroughly with fresh water. The unit is ready for reuse.

CLEANING AND DISINFECTING HARD, NON-POUROUS SURFACES ON PERSONAL PROTECTIVE EQUIPMENT (PPE) SUCH AS GLOVES AND FACE SHIELDS:
Rinse with a solution of 0.5 oz. of this product per gal. of water (850 ppm active). Gently mix for uniform solution. Apply the solution to surfaces of the respirator with a sponge, brush, cloth, mop, mechanical spray device, hand pump, coarse pump or trigger spray device. After cleaning, rinse with fresh water. The unit is ready for reuse.

Prepare a fresh solution daily or when visibly dirty.
**DISINFECTION/VIRUCIDIC* OF HARD, NON-POROUS SURFACES IN WHIRLPOOL UNITS:** After using the whirlpool unit, drain unit. Prepare a use solution of 0.5 oz. of this product per gal. of water and refill with use solution to just cover the intake valves or 2 inches above the highest jet. Briefly start the pump to circulate the use solution throughout the whirlpool and then turn off. Let treatment solution contact all exposed equipment for 10 minutes with a clean swab, brush or sponge. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly disinfected, drain the solution from the unit and rinse disinfect surfacess with fresh water. Dry with a clean sponge or cloth or allow to air dry. Repeat for heavily soiled units.

**CLEANING OF EXTERIOR BODIES OF CADAVERS:** Thoroughly rinse all exterior surfaces to remove visible debris and soil. Apply a use solution of 0.5 oz. of this product per gal. of water or apply the solution directly as a foam and allow it to contact the surface for 10 minutes. Remove heavy soil prior to disinfection. Do not mix with soap or detergent and rinse with water. Close room off so fog is confined to room to be treated. Mix 26 oz. of this product per gal. of water. (1,270 ppm active). Wear a dust mist respirator when mixing the use solution and pouring it into the fogging apparatus. Place the fogging apparatus in all personnel during the treatment of the room for a minimum of 4 hours before fogging begins. Have a minimum of 4 air exchanges (ACH) per hour in the facility. Do not house livestock or employ equipment until treatment has been absorbed or dried. Thoroughly clean and disinfect all equipment and rinse with water.

**ENTRYWAY SANITIZING SYSTEMS:** Sanitize all entryways and the packaging and storage areas of food plants, shoe baths containing one inch of freshly mixed solution of 0.75 oz. of product per gal. of water (850 ppm active). Apply solution to hard, non-porous surfaces with a sponge, brush, cloth, paper towel, spray or sprayer to loosen and remove surface soil. Saturate the treated surfaces with a solution of 0.5 oz. of this product per gal. of water and scrub to loosen all soils. Surfaces must remain wet for 10 minutes, and then allow to air dry for 4 air exchanges (ACH) per hour in the facility.

**TREATMENT OF HATCHERY ROOMS USING FOGGING DEVICES:** Fogging equipment which can contact food or water with soap or detergent, and rinse with potable water before reuse. Prolonged soaking will cause damage to metal instruments.

**FOR SOFT SURFACES SUCH AS TABLETS, BASKETS, BOWLS:** Use 0.5 oz. of this product per gal. of water, 5 air exchanges (ACH) per hour in the facility. Do not over wet. If applied to stain resistant nylon carpet, apply a fabric protector according to the carpet manufacturer's directions.

**HATCHERIES:** Use 0.5 oz. of this product per gal. of water containing 850 ppm active for removing litter and manure in the use solution. For spray applications, spray 6-8 inches from surface. Saturate the treated surfaces with a solution of 0.5 oz. of this product per gal. of water (850 ppm active). Apply solution to hard, non-porous surfaces with a sponge, brush, cloth, paper towel, spray or sprayer to loosen and remove surface soil. Saturate the treated surfaces with a solution of 0.5 oz. of this product per gal. of water and scrub to loosen all soils. Surfaces must remain wet for 10 minutes, and then allow to air dry.

**CARPET CLEANING**

- **For Portable Extraction Units:** Empty water out of toilet bowl or urinal and apply 0.5 this product per gal. of water to hard, non-porous surfaces such as appliances such as appliances and kitchen countertops must be rinsed with potable water. Do not use this product to clean or disinfect glassware, utensils, dishes or interior surfaces of appliances.
- **For USE AS A DISINFECTANT/VIRUCIDE* OF GROOMING CLIPPERS, HAIR CLIPPERS, ELECTRIC SHEARS, BARBER/SALON SHEERS AND OTHER IMPLEMENTS: Remove hair, dust and dirt particles prior to disinfecting the blades. Turn the clipper off occasionally during use and spray between the blades of the clippers. Remove all clipper parts, including the clipper case or clipper housing. Immerse pre-cleaned barber/salon tools such as combs, brushes, plastic rollers, razors, clipper and/or trimmer blades, tweezers, manicure/pedicure tools, scissors, and other salon instruments and tools in a use solution of 0.5 oz. of this product per gal. of water for at least 10 minutes. Rinse thoroughly and dry before use. Prepare a fresh solution daily or when visibly dirty.
- **FOR USE AS A DISINFECTANT/VIRUCIDE* OF HARD, NON-POROUS SURFACES IN FOOTBATHS:** To remove body oils, dead tissue, soil and all other buildup or organic matter on surfaces after using the footbath, drain the water and thoroughly clean all surfaces with soap or detergent, then rinse with water. Apply a solution of 0.5 oz. of this product per gal. of water to the footbath or spray equipment. Immerse all hairlets and other surfaces of processing equipment with soap or detergent and rinse with water. Close room off so fog is confined to room to be treated. Mix 26 oz. of this product per gal. of water. Wear a dust mist respirator when mixing the use solution and pouring it into the fogging apparatus. Insert the nozzle of the fogger through a suitable opening into the room. With the use solution 0.5 oz. of this product per gal. of water (850 ppm active) to disinfect hard, non-porous surfaces with a sponge, brush, cloth, mop, mechanical spray device, coarse pump or trigger spray device. Spray or airbrush thoroughly and allow solution to stand for 10 minutes. For spray applications, spray 6-8 inches from surface. Do not breathe spray. After the unit has been thoroughly disinfected, rinse all surfaces with fresh water. The unit is then ready for reuse.

**TO CONTROL MOLD/MILDEW** Controls and prevents/inhibits the growth of mold and mildew. Pre-clean heavily soiled areas. Prepare use solution of 0.5 oz. of this product per gal. of water. Apply solution to hard, non-porous surfaces for 10 minutes which will effectively control mold and mildew and their odors. Repeat treatment every seven days, or more often if new growth appears.

**GENERAL DEODORIZATION:** To deodorize, apply 0.5 oz. of this product per gal. of water to hard, non-porous surfaces. Allow to air dry.

**NON-FOOD CONTACT SANITIZING DIRECTIONS**

- **NON-FOOD CONTACT SANITIZING:** Pre-clean heavily soiled areas. Add 0.5 oz. of this product per gal. of water (850 ppm active). Apply solution to hard, non-porous surfaces such as appliances and kitchen countertops must be rinsed with potable water. Do not use this product to clean or disinfect glassware, utensils, dishes or interior surfaces of appliances.
- **FOR USE AS A DISINFECTANT, VIRUCIDE*, CLEANER, IN FOOD PROCESSING PLANTS/PREMISES, FOOD SERVICE ESTABLISHMENTS, FOOD STORAGE AREAS AND EQUIPMENT:**
  - Apply solution of 0.5 oz. of this product per gal. of water, 5 air exchanges (ACH) per hour in the facility. Do not over wet. If applied to stain resistant nylon carpet, apply a fabric protector according to the carpet manufacturer's directions.
  - Apply solution of 0.5 oz. of this product per gal. of water to disinfect hard, non-porous surfaces with a sponge, brush, cloth, mop, mechanical spray device, coarse pump or trigger spray device. For spray applications, spray 6-8 inches from surface. Do not breathe spray.
  -Apply solution of 0.5 oz. of this product per gal. of water, 5 air exchanges (ACH) per hour in the facility. Do not over wet. If applied to stain resistant nylon carpet, apply a fabric protector according to the carpet manufacturer's directions.

**FOOD PROCESSING PREMISES**

- **Note:** The fog generated is irritating to the eyes, skin and mucous membranes. Under no circumstances must a room or building be entered by anyone within two hours of the actual fogging and a minimum of 4 air exchanges (ACH) per hour in the facility. Do not house livestock or employ equipment until treatment has been absorbed or dried. Thoroughly clean and disinfect all equipment and rinse with water.
- **Note:** The fog generated is irritating to the eyes, skin and mucous membranes.
