GERMICIDAL DISPOSABLE WIPE

Net Contents
65 Extra Large Wipes; 8 x 14 in (20.3 x 35.5 cm) Net Wt. 2 lbs 1.0 oz (938 g)

Bactericidal • Tuberculocidal • Virucidal*

Sani-Tex Plus® kills bacteria listed on this label
- Escherichia coli (E. coli) O157:H7 (ATCC 35150)
- Escherichia coli (E. coli) (ATCC 11229)
- Methicillin Resistant Staphylococcus aureus (MRSA) (ATCC 33592)
- Mycobacterium bovis BCG (Tuberculosis) (ATCC 35743)*
- Pseudomonas aeruginosa (ATCC 15442)
- Staphylococcus aureus (ATCC 6538)
- Salmonella enterica (ATCC 10708)
- Vancomycin Resistant Enterococcus faecalis (VRE) (ATCC 51299)*

Virucidal
- *Herpes Simplex Type 2 (ATCC VR-714)
- *Influenza A2/Hong Kong (ATCC VR-544)
- *Respiratory Syncytial Virus (RSV)
- *HIV-1
- *Hepatitis B Virus
- *Hepatitis C Virus

†KILLS HIV-1 (AIDS VIRUS), HEPATITIS B VIRUS (HBV) AND HEPATITIS C VIRUS (HCV) ON THE PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS AND PRE-CLEANED EXTERNAL SURFACES OF ULTRASOUND TRANSDUCERS AND PROBES PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in two (2) minutes at room temperature (68º-77ºF) in healthcare or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

ACTIVE INGREDIENTS:
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides ..................0.125%
n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides...0.125%

OTHER INGREDIENTS ................................................................................................................99.750%

TOTAL ................................................................................................................................................100.000%

KEEP OUT OF REACH OF CHILDREN

CAUTION: See back panel for additional precautionary statements

EPA Reg. No.: 9480-6-64285    EPA Est. No.: 9480-NY-1
A quaternary/alcohol solution impregnated in a wiping cloth. A non-woven disposable cloth for use in hospitals and other critical care areas where the control of the hazards of cross-contamination between treated surfaces is required. Use on hard non-porous surfaces and equipment listed on this label made of stainless steel, plastic, Formica® and glass. Some organisms are removed from the surface by thoroughly wiping the surface with the wipe. Most remaining organisms are killed within three (3) minutes by exposure to the liquid in the wipe.

-5 minute contact time for TB and VRE; 3 minutes for other listed organisms.

Critical Care Areas: CCU, Emergency Rooms, ICU, Neonatal Intensive Care Units (NICU), Operating Rooms, Pediatric Intensive Care Units (PICU) and Surgery.

Hospital, Healthcare, and Critical Care Use Sites: May be used on hard non-porous surfaces of: bed railings, cabinets, carts, chairs, counters, exam tables, groupes, isoletes, IV poles, stethoscopes, stretchers, tables, telephones, toilet seats; and hard non-porous outside surfaces of: diagnostic equipment, patient monitoring equipment, patient support and delivery equipment.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to predisperse or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dispenser direction: To start feed: Remove lid and discard inner seal from canister. Find center of wipe roll, remove first wipe for use, twist corner of next wipe into a point and thread through the hole in the canister lid. Pull through about one inch. Replace lid. Dispense remaining wipes as necessary by pulling out at an angle. When not in use keep center cap of lid closed to prevent moisture loss.

DEODORIZING AND DISINFECTING: To disinfect nonfood contact surfaces only. Use a wipe to remove heavy soil. Untold a clean wipe and thoroughly wet surface. Treated surface must remain visibly wet for a full three (3) minutes. Use additional wipe(s) if needed to assure continuous three (3) minute wet contact time. Let air dry. These directions also apply to Mycobacterium bovis BCG (Tuberculosis) at a five (5) minute contact time at 68°F (20°C), and to Vancomycin Resistant Enterococcus Faecalis (VRE) at five (5) minute contact time.

Ultrasound transducers and probes: For use on external surfaces of ultrasound transducers and probes only. To disinfect: Pre-clean gel from external surface of ultrasound transducer or probe to be disinfected by using a clean washcloth. Thoroughly wet the probe with a towelette. Treated surface must remain visibly wet for a full three (3) minutes. Use additional wipe(s) if needed to assure continuous three (3) minute wet contact time. Let air dry. These directions also apply to Mycobacterium bovis BCG (tuberculosis) at a five (5) minute contact time at 68°F (20°C), and to Vancomycin Resistant Enterococcus Faecalis (VRE) at five (5) minute contact time.

TIPS FOR USE

PERSONAL PROTECTION: When using this product, wear disposable protective gloves, protective gowns, face masks, or eye coverings as appropriate when handling HIV-1 (AIDS Virus), HBV or HCV infected blood or body fluids.

Cleansing procedure: All blood and other body fluids must be thoroughly cleaned from surfaces and objects before disinfection by the germicidal wipe. Open, uniled first germicidal cloth to remove heavy soil.

DISPOSAL OF INFECTIOUS MATERIALS: Dispose of used towelette in accordance with local regulations for infectious waste disposal.

CONTACT TIME: Use second germicidal cloth to thoroughly wet surface. Allow to remain wet two (2) minutes. Let air dry. Although efficacy at a two (2) minute contact time has been shown to be adequate against HIV-1, HBV and HCV this time is not sufficient for the other organisms listed on this label. Therefore a three (3) minute wet contact time must be used for other listed organisms, five (5) minutes for TB and VRE.

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID: In case of contact with eyes: Hold open eyes and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PHYSICAL OR CHEMICAL HAZARD: Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

STORAGE AND DISPOSAL: Store: Do not store near heat or open flame. When not in use keep center cap of lid closed to prevent moisture loss. Towlette Disposal: Do not reuse towellette. Dispose of used towellettes in trash. Do not flush in toilet. Dispenser Disposal: Do not reuse empty container; Triple rinse and store for recycling. If recycling is not available, put in trash collection.

NOT A BABY WIPE: NOT FOR USE ON SKIN.

Use on hard non-porous surfaces and equipment listed on this label made of stainless steel, plastic, Formica and glass. Some organisms are removed from the surface by thoroughly wiping the surface with the wipe. Most remaining organisms are killed within three (3) minutes by exposure to the liquid in the wipe.

5 minute contact time for TB and VRE. 3 minutes for other listed organisms.

**Areas of Use:** Hospital and Healthcare Settings: Clinics, Dental Offices, Dialysis Clinics, Home Health Care, Hospitals, Laboratories, Nursing homes, Physical therapy, Physician’s offices, Radiology, Rehabilitation, Transport vehicles.

**Critical Care Areas:** CCU, Emergency Rooms, ICU, Neonatal Intensive Care units (NICU), Operating Rooms, Pediatric Care Units, Special Care Nursery, Transport vehicles.

**Hospital, Healthcare, and Critical Care Use Sites:** May be used on hard non-porous surfaces of bed railings, cabinets, doors, drawers, plinths, drawers, IV poles, stretchers, tables, telephones, toilet seats; and hard non-porous outside surfaces of diagnostic equipment, patient monitoring equipment, patient support and delivery equipment.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**DIRECTIONS FOR USE:**

**NOT FOR USE ON SKIN**

**NOT A BABY WIPE**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

**FIRST AID:**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor, or go for treatment.

**IF IN CONTACT WITH EYES:**

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor, or go for treatment.

**DISPOSAL OF INFECTIONOUS MATERIALS:** Dispose of used towelette in accordance with local regulations for infectious waste disposal.

**STORAGE AND DISPOSAL**

Storage: Do not store near heat or open flame. When not in use keep center cap of lid closed to prevent moisture loss. Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

**LEGAL NOTICES:**

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**PRECAUTIONARY STATEMENTS:** Hazards to humans and domestic animals

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

**FIRST AID:**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor, or go for treatment.

**IF IN CONTACT WITH EYES:**

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor, or go for treatment.

**DISPOSAL OF INFECTIONOUS MATERIALS:** Dispose of used towelette in accordance with local regulations for infectious waste disposal.

**STORAGE AND DISPOSAL**

Storage: Do not store near heat or open flame. When not in use keep center cap of lid closed to prevent moisture loss. Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

**LEGAL NOTICES:**

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

Caution

Precautionary Statements:
Hazards to humans and domestic animals.

Caution:
Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

First Aid:
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Physical or Chemical Hazard:
Combustible. Do not use or store near heat or open flame. Do not use on natural marble, windows, unpainted wood, brass, clear plastic or colored grout.

Directions for Use:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. See directions for use on the containers inside.

*Kills viruses including Influenza A2/Hong Kong and Herpes Simplex Type 2.
CROSSTEX SANITEX PLUS®
GERMICIDAL DISPOSABLE CLOTH
ITEM CODE: SANLC, SANXLC2
MATERIAL SAFETY DATA SHEET

IDENTIFICATION:
Manufactured for: Crosstex International
Address: 10 Ranick Rd, Hauppauge, NY 11788
Telephone: 631-582-6777
Date: September 18, 2006
Emergency #: *INFOTRAC = 1-800-535-5053

COMPOSITION/INFORMATION ON INGREDIENTS:
Component CAS # %
Isopropyl Alcohol 67-63-0 14.85
2-Butoxyethanol 111-76-2 1-4
Quaternary Ammonium 68391-01-5 0.250
Compounds 68956-79-6 0.250

HAZARDS IDENTIFICATION:
Emergency Overview: Combustible. Causes moderate eye irritation.
NFPA 704 Hazard Rating:
Flammability: 1 Health: 1 Instability(Reactivity): 0
Special: None

Potential Health Effects:
Eye Contact: Causes moderate eye irritation.
Skin Contact: None expected for treated applicator.
Inhalation: Vapor concentrations above recommended exposure levels are irritating to the eyes and the respiratory tract; may cause headaches, dizziness and other central nervous system effects.
Ingestion: Unlikely route of exposure

FIRST AID MEASURES:
Eye Contact: Hold eye open & rinse slowly & gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Skin Contact: If skin irritation occurs, discontinue use & wash with copious amounts of soap & water.
Inhalation: Unlikely route of exposure. Remove the affected person to fresh air. Administer artificial respiration if breathing has stopped. Call for prompt medical attention.
Ingestion: Unlikely route of exposure. If swallowed, DO NOT induce vomiting. Get promote medical attention. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

FIRE FIGHTING MEASURES:
Flammability: Not flammable (ICAO Method 1.1.2.1.)
Explosion Hazard: None
Extinguishing Media: Alcohol foam, water spray or fog
Precautions: If skin irritation occurs, discontinue use & wash with copious amounts of soap & water.

HANDLING & STORAGE:
Handling: Avoid contact with eyes or clothing. Wash thoroughly with soap & water after handling.
Storage: Do not store near heat or open flame. Do not reuse towelette. For canisters: When not in use, keep center cap of lid closed to prevent moisture loss.

EXPOSURE CONTROLS/PERSONAL PROTECTION:
Follow label directions carefully.

Component CAS# Exposure Limits
