DIRECTIONS FOR USE

FOR CONTINUOUS FEED METHOD

Initial Dose: When the system is noticeably fouled, add 0.048-0.058 gals of CoolingCare 2720 per 1000 gals of water in the system. Repeat every 4 days, or as needed to maintain control. Badly fouled systems must be cleaned before treatment is begun.

Subsequent Dose: When microbial control is evident, add 0.029-0.095 gals of CoolingCare 2720 per 1000 gals of water in the system. Contiguous feed method: Badly fouled systems must be cleaned before treatment is begun.

CONTINUOUS FEED METHOD

DIRECTIONS FOR TREATING ENHANCED OIL RECOVERY SYSTEMS

NOTE: Add CoolingCare 2720 to all systems or to a mix tank. For controlling or inhibiting the growth of bacteria, fungi and yeasts that may deteriorate metalworking fluids containing various oils or solvents, add at the rate of 0.0048-0.0095 gals per 1000 gals of water in the system. Subsequently, treat with 1-15 ppm CoolingCare 2720.

Subsequent Dose: The Subsequent Dose is 0.029-0.095 gals of CoolingCare 2720 per 1000 gals of water in the system. For controlling (or inhibiting) the growth of bacteria, fungi and yeasts that may deteriorate metalworking fluids containing various oils or solvents, add at the rate of 0.1 to 0.2 gal (1.06 to 2.12 lbs.) per 1000 gals of reconditioning fluid per day, or as needed to maintain control. Additions of CoolingCare 2720 product can be made continually or intermittently. Stop the system as required.

DIRECTIONS FOR TREATING MEDIUM FOULED SYSTEMS

The procedure is similar to that for Enhanced Oil Recovery Systems:

Subsequent Dose: Add 0.029-0.095 gals of CoolingCare 2720 per 1000 gals of water in the system. For controlling or inhibiting the growth of bacteria, fungi and yeasts that may deteriorate metalworking fluids containing various oils or solvents, add at the rate of 0.05 to 0.1 lb. (6 to 12 ppm) per 1000 gals of water.

Keep Out of Reach of Children DANGER

FIRST AID

If Inhaled: If high-concentration cloud is reached, immediately get to fresh air and seek medical attention.

If Ingested: Remove person from breathing danger by getting person to fresh air, immediately get to fresh air and seek medical attention.

If Skin or Clothing: Take off contaminated clothing. Rinse skin completely with water for at least 15 minutes.

If Eye Contact: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable systemic damage may result from oral ingestion of large quantities. CALL AN INDEPENDENT TOXICOLOGY CENTER.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Hazard Class: ENDOTOXIC OILY SLUDGE

CLASSIFICATION: INERT INGREDIENTS:

- Cationic surfactants (that are also bactericidal), hydrocarbons and other inert ingredients.

STORAGE:

- Store in a dry, cool, well-ventilated area.

- Keep drum tightly closed when not in use.

- To maintain product quality.

- Do not use in a way that will contact workers or other persons.

- Gloves before removing. As soon as possible, wash thoroughly.

- Use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable, nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the user. This product will not become defective nor will Ecolab assume any liability for the user.
