### FIRST AID

| If in eyes    | • Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. |
|              | • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. |
|              | • Call a poison control center or doctor for treatment advice. |
| If swallowed | • Call a poison control center or doctor immediately for treatment advice. |
|              | • Have person sip a glass of water if able to swallow. |
|              | • Do not induce vomiting unless told to do so by a poison control center or doctor. |
|              | • Do not give anything by mouth to an unconscious person. |

| If on skin or clothing | • Take off contaminated clothing. |
|                        | • Rinse skin immediately with plenty of water for 15 - 20 minutes. |
|                        | • Call a poison control center or doctor for treatment advice. |

| If inhaled | • Move person to fresh air. |
|           | • If person is not breathing, call 911 or ambulance, and then give artificial respiration preferably mouth-to-mouth if possible. |
|           | • Call a poison control center or doctor for further treatment advice. |

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. No specific antidote is available. All treatments should be based on observed signs and symptoms of distress in the patient. Overexposure to materials other than this product may have occurred.

Victims of severe overexposure, by inhalation, should be kept under medical observation for up to 72 hours for delayed onset of pulmonary edema. In a victim of overexposure by ingestion, careful gastric lavage is required due to the possibility of stomach or esophageal perforation. This material is an acid, but the use of alkaline substances to neutralize it is contraindicated.

PRECAUTIONARY STATEMENTS
DANGER/PELIGRO
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Corrosive: Causes irreversible eye damage. Wear safety goggles when handling. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Do not inhale vapors, as this product will irritate mucous membranes.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category A on an EPA chemical-resistance selection chart. applicators and other handlers must wear long-sleeved shirts and long pants, chemical-resistant gloves made of any waterproof material such as polyethylene or polyvinyl chloride, shoes plus socks, and protective eyewear. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product concentrate. Do not reuse them. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, or using tobacco. Do not remove clothing immediately if pesticide gets inside. Then wash body thoroughly and change into clean clothing. The contaminated clothing should be washed before reuse. Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product to any area that is in a way that workers or other persons, either directly or through contact with equipment or clothing, may enter. Do not allow equipment (e.g., mowers, spreaders, and applicators) or parts that have been in contact with this product to come in contact with food, food processing equipment, or food contact surfaces. Spill control equipment shall be posted at the entry into treated areas, until this product has dried. Do not allow spray to contact crops, crops in fields, lawns, seedbeds, or seeds for planting. Do not apply this product on or near any food or feed crop, or on any food or feed crop when such crop is being grown. Do not apply this product to any area where surface water is present. Do not apply this product in a manner that will contact birds or animals, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations. Read entire label before using this product.

PRODUCT USE
Proxy® Growth Regulator is a plant growth regulator that may be used to suppress the formation of seedheads of various plants including Poa annua and white clover and also to suppress the growth of certain cool season grasses. Proxy Growth Regulator is foliarly absorbed and is most effective on actively growing healthy turf. For best results, apply in sufficient volume of water to provide uniform coverage. Use of a spreader/sticker with an application of Proxy Growth Regulator is not necessary. Proxy Growth Regulator is rainfast within 2 hours. Do not allow entry into treated areas until Proxy Growth Regulator has dried. For maximum performance, delay mowing until the day after application.

Scalping may occur on creeping bentgrass cultivars after more than 2 applications of Proxy Growth Regulator for the initial application prior to the emergence of new seedheads. A period of 2-3 weeks after application is required for maximum performance. Do not use this product for purposes other than those listed on the label. Do not treat turfgrass with poor root system or growing under stress due to poor soil conditions, drought, disease, or insect damage. Do not use Proxy Growth Regulator in areas where excessive thatch has accumulated. Do not contaminate water used for irrigation or domestic purposes. Do not apply Proxy Growth Regulator through any type of irrigation system. Avoid spray drift to nearby crops, as this product will cause modifications in plant growth. Plant injury may result. Growth suppression may occur on creeping bentgrass cultivars after more than 2 applications of Proxy Growth Regulator for Poa-seedhead suppression. Proxy Growth Regulator has been used successfully on many bentgrass cultivars. Tolerance testing must be done on new cultivars before extensive use. Mix only the amount of spray you expect to use each day. Do not allow mixed solution to stand overnight. Do not buffer spray solutions. Test tank mixes with other products on a small area before using widely.

IMMEDIATELY RINSE ANY SPILLS WITH PLENTY OF WATER AS PROXY GROWTH REGULATOR IS CORROSIVE.
Do Not Exceed a Maximum of 30 oz of Proxy Growth Regulator per 1,000 sq ft per year. Equipment Cleaning: Prolonged exposure to spray deposits will damage acrylic plastics, certain paints, and metals because of the acidic nature of this product. Rinse thoroughly all exposed acrylic plastic materials and painted surfaces with a detergent and water within one hour after exposure to spray deposits.

TURF
Seedhead Suppression: Foliar application of Proxy Growth Regulator will provide suppression of Poa annua and white clover seedheads. Make the initial application prior to the emergence of new seedheads. A period of 2-3 weeks after application is required for maximum performance. Repeat applications may be made to predominately Poa annua or white clover sites as needed, but not less than two weeks after the previous application. Follow other precautions and restrictions on the label.

APPLICATION                      SITES                       RATE             SPRAY VOLUME
Poa annua and White Clover Seedhead Suppression: Replicating interval: 2 weeks or greater for all labeled grasses Golf course turf including Greens, Tees, Fairways, and Roughs Commercial Turfgrasses including Bentgrass, Kentucky Bluegrass, Perennial Ryegrass, Tall & Fine Fescue, and Bermudagrass 5 fl oz/1,000 sq ft 1.0-2.0 gal/1,000 sq ft
Tank Mixture with Primo MAXX: Tank mixtures of Proxy Growth Regulator at 5 oz per 1,000 sq ft and Primo MAXX at 0.125 or 0.25 ounce per 1,000 sq ft can be used to promote seedhead suppression as well as turfgrass quality. Multiple applications of the tank mixture combination may be needed. The number of applications must not exceed recommendations for rates or timings for either product applied alone. Follow the recommendation on each product label for the most restrictive application interval for each turfgrass. Application of this tank mixture during frost periods may cause temporary turf discoloration. Growth Suppression: For an application of Proxy Growth Regulator slows the growth of turfgrasses, thus reducing the required frequency of mowing and the volume of clippings collected. For best turfgrass growth regulation, apply Proxy Growth Regulator when daytime air temperatures...
APPLICATION                           SITES                      RATE           SPRAY VOLUME

Turfgrass Growth Regulation
Reapplication intervals:
• Kentucky Bluegrass-7 weeks
• Perennial Ryegrass-7 weeks
• Tall/Fine Fescue-4 weeks
• Bentgrass-4 weeks

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE
Store in original container and keep tightly closed. Store in a cool dry place.

PESTICIDE DISPOSAL
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Wastes resulting from the use of this product may be disposed of by use according to label instructions or at an approved waste disposal facility.

CONTAINER DISPOSAL
Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Offer for reconditioning, if appropriate. Triple rinse container (or equivalent) promptly after emptying. Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or by incineration or if allowed by state and local authorities, by burning. Stay out of smoke.

IMPORTANT: READ BEFORE USE
Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

CONDITIONS:
The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, reflectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Bayer CropScience LP. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. No agent of Bayer CropScience LP is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER CROPSCIENCE LP DISCLAIMS ANY LIABILITY WHATSOEVER FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. LIMITATIONS OF LIABILITY: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER FOR ANY AND ALL LOSSES, INJURIES OR DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR OTHERWISE, SHALL NOT EXCEED THE PURCHASE PRICE PAID, OR, AT BAYER CROPSCIENCE LP’S ELECTION, THE REPLACEMENT OF PRODUCT.
