FIRST AID

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Give 2 to 4 cups of water or milk if person is able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If on skin or clothing:
• Take off contaminated clothing.
• Wash skin with soap and plenty of water for 15 - 20 minutes.
• If on eyes: Hold open eyelids and rinse gently with water for 15 - 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor immediately for treatment advice.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for treatment advice.

If in eyes:
• Hold open eyelids and rinse gently with water for 15 - 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

HISTORY OF USE

This product has been in use since 1996.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Runoff from treated areas or deposition of spray droplets on a body of water may be hazardous to fish and aquatic invertebrates. Before making the first application in a season, it is advisable to consult with the state or tribal agency with primary responsibility for pesticide regulation to determine if other regulatory requirements exist. Do not apply over bodies of water (lakes, rivers, permanent streams, natural ponds, commercial fish ponds, oyster beds, marshes, or estuaries), except under conditions necessary to target areas where aquatic invertebrates are present, and weather conditions will facilitate movement of applied material away from the water in order to minimize incidental deposition into the water body. Do not contaminate water when disposing of equipment residue or wash water.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow drift when bees are actively visiting the treatment area, except when applications are made to prevent or control a threat to public and/or animal health determined by a state, tribal, or local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes, or the occurrence of mosquito-borne disease in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

PRODUCT USE STATEMENTS

1. Read and follow all label directions and precautionary statements on the product label. See Formulation Specific Product Use Instructions for additional requirements.

2. Do not contaminate water when disposing of equipment residue or wash water.

3. Attach the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of Medical emergency or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-334-7377.

4. User should wash hands after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

USER SAFETY RECOMMENDATIONS

For MEDICAL and TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7377

For PRODUCT USE Information Call 1-800-331-2987

See Panel for First Aid Instructions and Complete Precautionary Statements and Directions for Use.

See Panel for First Aid Instructions and Complete Precautionary Statements and Directions for Use.

ENGINEERING CONTROLS

Pilots must use an enclosed cockpit that meet the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.24(d)(6)). Human flagging is prohibited. Flagging to support aerial application is limited to use of the Global Positioning System (GPS) or mechanical flaggers.

USER SAFETY RECOMMENDATIONS

Users should wash hands after eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its label.
