For plastic and painted surfaces, spot test on an inconspicuous area before use. Not for use in the kitchen or on marble, tile, linoleum or other surfaces that may be damaged by acidic cleaners. It is not recommended for use on glass, mirrors, or any area where a pH of less than 7 is a concern. Do not use on lace, soft or bouclé fabrics, leather, aluminum, treated woods, wicker, decorative trim, painted wood, or painted metal. This product is designed for use on hard, non-porous inanimate surfaces that do not harbor water (at least 50% solids).
