PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER: Corrosive: Causes irreversible eye damage. May be fatal if inhaled, ingested or swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously rinsing the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Strong oxidizing agent. Do not mix with other chemicals. Mix only with water. Never add water to product. Apply only in large quantities of water (see dry yield under directions). Do not add to any device that is not rinsing device containing remants of any other product. Such use may result in violent reactions leading to fire or explosion. Contains sodium hydroxide, water, and other chemicals. Do not add this product to any anion exchange device containing remnants of any other product.

SUPERCHLORINATION: Superchlorination is necessary at the beginning of the bathing season, when the pool is filled, every week during hot weather, and following heavy rain or windstorms. Superventilate the pool with a suitable granular product by following directions below or on another product's label. Keep pump-filter system running for at least 10 hours after treatment. Frequency of treatment is dependent upon ambient temperatures, light intensity, and bather load. Do NOT prechlorinate until the chlorine residual has dropped to 1.0 - 2.0 ppm.

For superchlorination, broadcast an ounce of this product per 10,000 gallons directly into the water in the deep end of the pool. To prevent damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom of your pool. NEVER ALLOW UNDISSOLED PRODUCT TO REST IN CONTACT WITH BLEACHABLE POOL SURFACES.

Renna 289-746

In The Swim Chlorinating Granules 50 lbs.

NEVER ALLOW UNDISSOLED PRODUCT TO REST IN CONTACT WITH BLEACHABLE POOL SURFACES.

In water temperatures less than 70°F, or in an alternate application procedure, presoak this product prior to applying evenly to the deep end of the pool. Dissolve this product outdoors, in a clean plastic bucket stirring with a clean plastic or wooden spoon. Add this product to water. NEVER add water to this product. NEVER add more than 1 pound of this product to 3 gallons of water. Do not mix with other products while presoaking.

MAINTENANCE DOSAGE: With pump running, broadcast 4 ounces of this product per 10,000 gallons directly into the water in the deep end of the pool as an initial treatment. Repeat additions until a residual of 1-3 ppm chlorine is established as determined by use of a test kit. To prevent damage to pool surface, use a pool brush to disperse granules that may have settled to the bottom of the pool.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of improper seal, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding container.

DISPOSAL:
Immediately report spills or leaks. Do not reuse or refill this container. Offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down an indoor or outdoor drain.
