NET WT. 40 LBS. (18.15 Kg)

LEBANON®

TREFLAN*5-G

CONTAINS TREFLAN* HERBICIDE

Crabgrass  Goosegrass  Chickweed

Annual Grasses  Broadleaf Weeds

CAUTION

Keep out of reach of children.

Precautionary Statements

Hazards to Humans and Domestic Animals

Caution

Caution indicates that the product is not a toxic pesticide. Use as directed. Use of the product may cause injury to humans and domestic animals.

First Aid

If ingested:
- Get medical attention immediately.
- Do not induce vomiting.
- Drink plenty of water.

If skin or clothing contacts:
- Wash skin with soap and water.
- Change clothing immediately.

If眼睛 contacts:
- Rinse eyes with plenty of water for 15 minutes.
- Get medical attention immediately.

If swallowed:
- Do not induce vomiting.
- Get medical attention immediately.

For more information, contact the manufacturer or the Environmental Protection Agency (EPA) at 1-800-354-6354.

MAR 24 2004

961-405
CONTAINS TREFLAN* HERBICIDE

Lebanon TREFLAN* 5G is a selective preemergence herbicide for control of certain annual grasses and broadleaf weeds in:

- Container Grown Ornamentals
- Landscape Ornamentals
- Nursery Stock
- Ground Covers
- Established Flowers
- Ornamental Bulbs
- Non-Bearing Fruit and Nut Trees and Non-Bearing Vineyards in Ornamental Landscaping
- Noncropland

ACTIVE INGREDIENT:
- trifluralin .................................................................................................................. 5.0%

OTHER INGREDIENTS: .................................................................................................... 95.0%

TOTAL ................................................................................................................................ 100.0%

*Trademark of Dow AgroSciences LLC.
Contains 2 pounds active ingredient per 40 pound bag.
Manufactured using the processes of U.S. Patents 4,120,905 and 4,226,769.

KEEP OUT OF REACH OF CHILDREN

CAUTION

Refer to back panel of bag for precautionary information and Directions for Use including STORAGE AND DISPOSAL.
In case of an emergency endangering life or property involving this product, call Chemtrec at 1-800-424-9300.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything to an unconscious person.

IF ON SKIN: Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For Emergency Medical Information, call (888) 203-1360.

LEBANON®
TREFLAN® 5-G CONTAINS TREFLAN® HERBICIDE

PERSONAL PROTECTIVE EQUIPMENT (PPE):
Applicators and other Handlers must wear:
• Long-sleeved shirt and long pants
• Shoes plus socks
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is extremely toxic to freshwater marine, and estuarine fish and aquatic invertebrates including shrimp and oyster. Do not apply in a manner which will directly expose canals, lakes, streams, ponds, marshes or estuaries to drift. Do not contaminate water when disposing of equipment and washwater. Do not apply directly to water, or to areas where surface water is present or to intermittent areas below the mean high water mark.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

NOT FOR USE ON PLANTS BEING GROWN FOR SALE OR OTHER COMMERCIAL USE, OR FOR COMMERCIAL SEED PRODUCTION OR FOR RESEARCH PURPOSES. FOR USE ON PLANTS INTENDED FOR AESTHETIC PURPOSES OR CLIMATIC MODIFICATIONS AND BEING GROWN IN INTERIOR PLANTSCAPES, ORNAMENTAL GARDENS OR PARKS, OR ON GOLF COURSES OR LAWNS AND GROUNDS.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

ENTRY RESTRICTIONS
Do not enter or allow others to enter the treated area until after dust has settled. If soil incorporation is required after the application, do not enter or allow others to enter the treated area (except those persons involved in the incorporation) until the incorporation is complete. If the incorporation is accomplished by watering in, do not enter or allow others to enter the treated area until the surface is dry after the watering-in.

GENERAL INFORMATION
This product is a premix granular herbicide for control of certain annual grasses and broadleaf weeds in container grown ornamentals, landscape ornamentals, nursery stock, ground covers, established lawns, ornamental bulbs, non-bearing fruit and nut trees, non-bearing vines/creepers in ornamental landscaping only, and non-cropland. Apply before or after planting but prior to emergence of target weeds, or immediately after cultivation. Length of weed control will vary with weed population, prevailing weather conditions, temperature, water regime and other factors. Following application, user should monitor and observe level of weed control over time to determine when additional applications may be needed. Repeat applications should not be made sooner than 60 days after a previous application. Do not apply over 240 lbs. per acre total of this product within a 12-month period.

GENERAL USE PRECAUTIONS
This product does not control established weeds. Existing weeds should be controlled by cultivation or by pre-emergence herbicides. Weed residues, prunings and trash should be removed or thoroughly mixed into soil prior to treatment. Soil should be in good condition and free of clods at the time of application. A single rainfall or sprinkler irrigation of 0.5 inches or more, or flood irrigation, is required to activate this product. Optimum weed control is obtained when this product is activated within 3 days of application. If rainfall or irrigation has not occurred within 3 days of application and foliage is possible, this product may be activated using cultivation equipment capable of uniformly mixing the herbicide into the top 1-2 inches of soil. Failure to activate this product within 3 days of application may result in erratic weed control. Do not apply when wind conditions favor drift of the granules from the target area.

Optimum weed control will be obtained when followed by overhead irrigation or rainfall within a few hours after surface application.

WEEDS CONTROLLED WHEN APPLIED AT 30 LBS./ACRE (1.8 lbs./1,000 Sq. Ft.)

SPECIMEN LABEL
APPLICATION DIRECTIONS

Apply this product using a drop or rotary-type spreader designed to apply granular herbicides or nutrients. Calibrate application equipment prior to use according to manufacturer's directions. Check frequently to be sure equipment is working properly and distributing granules uniformly. Do not use spreaders that apply material in narrow concentrated bands. Avoid skips or overlaps as poor weed control or plant injury may occur. More uniform application may be achieved by spreading half of the required amount of product over the area and then applying the remaining half in smalls at right angles to the first.

APPLICATION TECHNIQUES

• When using a drop-type spreader, a splash board mounted under the hopper will provide more even granular distribution.
• A chain fastened to the side of the spreader and allowed to drag on the soil surface can be used to mark the edge of the treated swath and help prevent skips or overlaps.
• For treating smaller areas or rows of nursery stock or ornamental beds, a hand-held push-type rotary applicator such as whirlbird or cyclonic unit is recommended. For hand-held units, walk and turn the crank at a constant rate of speed.
• A shuttle-type applicator made from a small container with holes punched in the bottom is recommended for small, hard-to-reach areas. Carefully measure the amount of product needed to avoid over-application.

APPROVED USES

This product is recommended as a preventive treatment for control of certain annual grasses and broadleaf weeds in container-grown ornamentals, landscape ornamentals, nursery stock, ground covers, ornamental bulbs, non-bearing fruit and nut trees, non-bearing vineyards in ornamental landscaping only, and non-irrigated. Apply before or after planting but prior to germination of target weeds, or immediately after cultivation.

Refer to the "General Information" section of this label for general use precautions and information on application angles and weeds controlled.

SPECIAL USE PRECAUTIONS

To avoid possible injury, do not apply this product to:
• Uncoated or cuttings that have been planted in pots for the first time
• Pots less than six inches wide
• Ground covers until they are established and well rooted
• Do not apply to newly transplanted ornamentals, nursery stock, ground covers, flowers and non-bearing fruit and nut crops and non-bearing vineyards in ornamental landscaping until soil or potting media has been sealed by mulching and irrigation or rainfall and no cracks or present or injury may occur.
• Do not make preplant applications of this product to areas where soil or cover crops are expected to be planted or injury may occur.
• Do not apply this product in greenhouse or other enclosed structures.

Repeat applications should not be made sooner than 60 days after a previous application of this product. Do not apply over 240 lbs. active ingredient to this product within a 12 month period.

Prior to using this product on a large number of plants, the treated plants should be observed for signs of herbicidal injury during 30 to 60 days of normal growing conditions to determine if the treatment is non-injurious to the target plant species. THE USER ASSUMES RESPONSIBILITY FOR ANY PLANT DAMAGE OR OTHER LIABILITY RESULTING FROM THE USE OF THIS PRODUCT ON PLANT SPECIES NOT RECOMMENDED ON THIS LABEL.

This material may be used on the following Listed plant species when container grown or field grown:

Trees:

- Eastern Redcedar
- Eastern Hemlock
- Eastern White Pine
- European White Pine
- Fijian Podocarpus
- Hinoki Cypress
- Japanese White Pine
- Japanese Yew
- Korean Cypress
- Leyland Cypress
- Leylandii
- Mugo Pine
- Norway Spruce
- Redwood

Ornamental Shrubs:

- Arizona Cypress
- Blue Spruce
- Chinese Elaeagnus
- Common Buiswood
- Common Buckthorn
- Common Boxwood
- Cornelian Cherry
- Cotoneaster
- Cranberry
- Deutzia
- Deer Grass
- Dogwood
- Eastern Redcedar
- Eastern Hemlock
- Eastern White Pine
- European White Pine
- European Yew
- Fijian Podocarpus
- Hinoki Cypress
- Japanese White Pine
- Japanese Yew
- Korean Cypress
- Leyland Cypress
- Leylandii
- Mugo Pine
- Norway Spruce
- Redwood

Other:

- Asian Japonica
- Blue Spruce
- Chinese Elaeagnus
- Common Buiswood
- Common Buckthorn
- Cornelian Cherry
- Cranberry
- Deer Grass
- Dogwood
- Eastern Redcedar
- Eastern Hemlock
- Eastern White Pine
- European White Pine
- European Yew
- Fijian Podocarpus
- Hinoki Cypress
- Japanese White Pine
- Japanese Yew
- Korean Cypress
- Leyland Cypress
- Leylandii
- Mugo Pine

### Matte Blueberry
- *Tecoma Cypress*
- *Purple Rolling Pine*
- *Sundrum Plumage*
- *Wine Red Yew*
- *Bottlebrush Firebush*
- *White Firebush*
- *Purple Perpetual*
- *Golden Perpetual*
- *Tern Belly*
- *Texas Fanfare*

### Weeping White
- *Life of the Party*
- *Beechwood*
- *Cape Morn*
- *Thistle*
- *Asparagus*
- *Buckeye*
- *Vinegar Cane*

### Yellow
- *Cowslip*
- *Valley Cents*
- *Albion*
- *Satin Silk*
- *African Daisy*
- *Daisy White*
- *Clematis*

### Ornamental Bulbs
This product may be applied for control of susceptible annual weeds in ornamental bulbs, e.g., bulbous iris, daffodils (narcissus), hyacinth and tulip. Apply to the soil surface 2 to 4 weeks after planting, but prior to the emergence of annual weeds. This product may also be applied following bulb emergence. For fall-planted bulbs, apply the product again in late winter or early spring on weed-free soil surfaces.

### Established Flowers
- *White Fire*
- *Ruby Fire*
- *Abandoned Rose*
- *Amaryllis*
- *Shady Lady Fire*
- *Vancouver Fire*
- *Tulip Fire*
- *Belle O'Fire*

### X-Ray Fruit and Nuts Trees and Non-Bearing Vineyards in Ornamental Landscaping Only*
- *Alamo*
- *Appletree*
- *Apricot*
- *Avocado*
- *Blackberry*
- *Blueberry*

### Non-Bearing Fruit and Nuts Trees
Do not contaminate water, feed or by storage or disposal.

**STORAGE AND DISPOSITION**
- Keep in original container in a cool, dry area, away from extreme heat and direct sunlight. Do not store near food, feed, seeds or other pesticides.
- Store in original container only. In case of leak or spill, contain material and dispose of as waste.
- **PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

### Warranty Disclaimer
- **WARRANTY DISCLAIMER**
- It is impossible to eliminate all risks associated with the use of this product. Plant injury, lack of performance or other unintended consequences may result because of such factors as the use of product alone, errors made in label instructions, including conditions noted on the label, such as unfavorable temperature, soil conditions, etc., abnormal conditions (such as excessive rainfall, drought, storms, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of the Manufacturer or the Seller. All such risks shall be assumed by the Buyer.
WARRANTY

The Manufacturer warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions not reasonably foreseeable to Manufacturer, and Buyer assumes the risk of any such use.
