Cleaning Procedure:
Blood and other body fluids must be thoroughly cleaned from surfaces and splashing of blood or body fluids may occur. Such as latex or other impervious gloves. Face shields and impervious gowns should also be worn if exposure to blood or body fluids should be avoided by use of barrier protection.

Objects Soiled with Blood or Body Fluids:
Special Instructions for Cleaning and Decontamination Against HBV and HIV-1 on Surfaces or OUSLY SOILED WITH BLOOD/BODY FLUIDS
**KILLS HBV AND HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVI-
1. Shake well.
2. Hold 6 to 8 inches from surface. Spray until thoroughly covered.
3. Wait 10 minutes and wipe.
TnT is a proven one-step cleaner, disinfectant virucide in the presence of moderate amounts of organic soil. For heavily-soiled areas, a preliminary cleaning is required.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
