HOSPITAL SPRAY

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Avoid contamination of food and food utensils. In case of contact, contact surfaces must be thoroughly scrubbed with detergent and rinsed with potable water prior to reuse. Causes eye and skin irritation. Avoid contact with eyes and skin.

FIRST AID INSTRUCTIONS: IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or your doctor for further treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PHYSICAL OR CHEMICAL HAZARD: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. STORAGEN: Store in a cool area away from heat or open flame. DISPOSAL: Do Not Puncture or incinerate. IF EMPTY: Place in trash or offer for recycling if available. IF PARTIALLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

SPRAY DISINFECTANT: Disinfects and deodorizes surfaces through effective bactericidal and fungicidal activity. Kills Staphylococcus aureus, Trichophyton mentagrophytes (athlete's foot fungus) on hard surfaces. Controls odors. A tuberculocidal against Mycobacterium bovis (BGC) when used undiluted at a contact time of 10 minutes at 25°C. *Kills HIV-1 (AIDS virus), Influenza A2 England and Herpes simplex viruses type 1 and 2 on non-environmental hard surfaces. Effective when tested by the AOAC Germicidal Spray Method. This product may be used in hospitals.

DIRECTIONS FOR USE: Shake well before using.

For Surfaces: Clean soil deposits from surfaces to be treated. Remove protective cap, hold can upright and spray from a distance of 8 to 10 inches until area is thoroughly moistened. Allow surfaces to air dry a minimum of 10 minutes to ensure disinfection. Food contact surfaces must be thoroughly scrubbed with detergent and rinsed with potable water before reuse.

For Control of Mold and Mildew on Hard, Nonporous Surfaces: Clean surfaces prior to application, then spray surfaces until thoroughly moistened. Allow to dry. Repeat application in 14 days.

For Hospital Use: See use directions under “Surfaces.” Walls, floors, bed frames, bedding, urinals, furniture, fixtures, containers, toilet seats, diaper pails, examining tables, x-ray film equipment, stretchers, beds, bedding, chairs, tables. Controls mold and mildew. General Use - telephone, pet animal areas, diaper pails, nursery room.

Do Not spray on polkaed wood, furniture or rayon fabrics.

*SPECIFIC INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BOIDY FLUIDS. KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BOIDY FLUIDS in healthcare settings or other settings in which there is an expected likelihood of soiling on inanimate surfaces/objects with blood or body fluids, and in which the surface/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. Disinfection will occur in 10 minutes at 25°C. Cleanup should always be done wearing protective latex gloves, gown, mask and eye protection. Blood, body fluids, cleaning materials and clothing should be autoclaved and disposed of according to local regulations for infectious waste disposal.

ACTIVE INGREDIENTS:

Active Inhalant: 44.25%

- 5-Aryl (50% C14, 40% C12, 10% C16)
- Dimethyl (Benzyl ammonium chloride) 0.33%
- Phenol and derivatives 0.0095%
- Other ingredients 55.17%

INERT INGREDIENTS: Contains 0.3% sodium nitrite.

TOTAL: 100.00%

KEEP OUT OF REACH OF CHILDREN.

WARNING: See side panel for additional precautionary statements.

NET WT. 1 LB. (16 OZ.) (454 GRAMS)

ITEM #170041

Prevents Mold and Mildew on Hard Nonporous Surfaces
