**APPLICATION INSTRUCTIONS**

**KEEP PEOPLE AND PETS OUT OF AREA DURING APPLICATION.**

**FOR EXTERNAL USE ONLY.**

Do not apply this product by any method not specified on this label. The use of this product on pasture and rangeland is unlawful. Do not graze or feed lawn or sod clippings to livestock. Maxforce Granular Insect Bait contains a pyrethrin and is a broad-spectrum insecticide. Do not apply this product on areas where livestock or pets will have access or in areas where they will not be damaged by exposed equipment such as mowers and trimmers. If the product is not being used immediately after opening, store in its original container. Use only those service containers that are designated for this product by the manufacturer.

**Further Recommendations:**
- Use only for the control of fire ants and other mound building ants.
- Do not apply this product to areas where livestock or pets will have access or in areas where they will not be damaged by exposed equipment such as mowers and trimmers.
- Do not contaminate water, food or feed by storage or disposal.
- Avoid contamination of food, food contact surfaces and feedstuffs. 
- Note: Indoor applications are limited to areas that are inaccessible to children or pets, such as cracks, crevices, and voids formed by building materials, pipes, drains, sewers, plumbing fixtures, piping systems, shut-off valves, valves, meters, access ports, spaces between walls, floors, ceiling, cavities, and voids behind electrical wiring, plumbing, etc. There should be no leaks, cracks, or deficiencies in these areas where pest activity could occur.
- Avoid contamination with other insecticides.
- Do not apply to areas where livestock or pets will have access or in areas where they will not be damaged by exposed equipment such as mowers and trimmers.
- Do not contaminate water, food or feed by storage or disposal.
- Avoid contamination of food, food contact surfaces and feedstuffs.
- Note: Indoor applications are limited to areas that are inaccessible to children or pets, such as cracks, crevices, and voids formed by building materials, pipes, drains, sewers, plumbing fixtures, piping systems, shut-off valves, meters, access ports, spaces between walls, floors, ceiling, cavities, and voids behind electrical wiring, plumbing, etc. There should be no leaks, cracks, or deficiencies in these areas where pest activity could occur.
- Avoid contamination with other insecticides.
- Do not apply to areas where livestock or pets will have access or in areas where they will not be damaged by exposed equipment such as mowers and trimmers.
- Do not contaminate water, food or feed by storage or disposal.
- Avoid contamination of food, food contact surfaces and feedstuffs.

DIRECTIONS FOR USE

1. AROUND STRUCTURES:
   - Maxforce Granular Insect Bait may be sprinkled around structures and/or applied to
     soil using a broadcast spreader. For additional information, refer to the product's
     label or contact the manufacturer.
   - Do not apply other insecticides (such as aerosols, sprays, etc.) on top of or in close proximity to
     Maxforce Granular Insect Bait, as it will reduce effectiveness. Expect to see fewer insects within a week.
   - Do not apply this product by any method not specified on this label. The use of this product on pasture and
     rangeland is unlawful. Do not graze or feed lawn or sod clippings to livestock.
   - Maxforce Granular Insect Bait contains a

2. FIRE ANTS2 AND OTHER MOUND BUILDING ANTS3:
   - Apply up to 0.5 oz (one tablespoon) of bait per crack, crevice or other inaccessible areas where insects may
     hide or live. Apply product using suitable application equipment (such as the Centro Bait Master.) Wipe up
     any loose or excess granules. Apply evenly in unfinished attics and crawl spaces at a rate of 0.5 oz per 100

3. FIRE ANTS2 AND OTHER MOUND BUILDING ANTS:
   - Sprinkle approximately two tablespoons (1 oz of

4. MOUNDS:
   - Sprinkle approximately two tablespoons (1 oz of

5. VARIOUS OTHER INSECTS:
   - Apply up to 0.5 oz (one tablespoon) of bait per 25 linear feet. NOTE: Around structures the total application
     should not exceed 4-8 oz per 200-400 linear feet (or 0.5 oz per 25 linear feet). A typical application
     would be 2-4 stations per 100 linear feet. Be sure to treat areas such as porches, decks, entryways,

6. EXTERIOR LICENSE PLATE VENTILATIONS AND MOUNTING BRACKETS:
   - Do not apply Maxforce Granular Insect Bait near electrical outlets, motors, fans, or other electrical
     equipment. DO NOT USE ON EDIBLE FOOD CROPS OR ON AREAS INTENDED FOR EDIBLE FOOD

7. COMMERCIAL APPLICATION:
   - Maxforce Granular Insect Bait is ready-to-use for all pest control and sanitation and control of ants,
     cockroaches1, crickets, and silverfish before they can enter a structure. Do not apply other insecticides (such as
     aerosols, sprays, etc.) on top of or in close proximity to Maxforce Granular Insect Bait, as it will reduce

8. ENVIRONMENTAL HAZARDS:
   - If you should wash hands and/or face before eating or drinking. Do not apply other insecticides (such as
     aerosols, sprays, etc.) on top of or in close proximity to Maxforce Granular Insect Bait, as it will reduce

9. PERSONAL PROTECTIVE EQUIPMENT (PPE):
   - Personal Protective Equipment (PPE) is required when handling this product. If no such instructions for
     washables exist, wash all items of PPE thoroughly. If no such instructions for disposable

10. STORAGE AND DISPOSAL:
    - Wastes resulting from the use of this product may be disposed of on-site or at

ENVIRONMENTAL HAZARDS

Do not contaminate water, food or feed by storage or disposal. The use of this product on pasture and rangeland is restricted to agricultural areas that are not used for food or feed purposes, are isolated from surface and groundwaters in accordance with the California Environmental Protection Agency’s Water Quality Control Board, Division of Surface Water Quality, and are not used for the grazing or feeding of other livestock. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT READ BEFORE USE

Read entire structure for the information, conditions, limitations and conditions of liability below before using the product. If terms are not acceptable, return the product at once.

APPLICATION INSTRUCTIONS

FOR OUTDOOR USE

KEEP PEOPLE AND PETS OUT OF AREA DURING APPLICATION.

FOR INDOOR USE

Retreatment Schedule

The directions for use of this product are believed to be adequate and must be followed carefully, including the specified retreatment schedule, in order to assure the intended effectiveness of the product.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
