**Sklar Disinfectant**

**Hard, Non-Porous Surface Disinfectant Cleaner and Sanitizer**

**Active Ingredients:**
- Isopropanol: 78.692%
- Dimethyl benzyl ammonium chloride: 0.154%

**Preparation and Application:**
- For cleaning and disinfecting hard, non-porous surfaces.
- Apply undiluted by sponge, cloth, mop, spray, paper towel or soft brush.
- Allow to remain wet for at least 10 seconds before laundering as usual.

**Cleaning Directions:**
- For cleaning walls and floors:
  - Thoroughly spray the surface, allow to remain wet for 10 seconds before using a clean microfiber mop, paper or cloth towel, or rinse the surface using potable water and wipe it dry or allow it to air dry.

**Sanitization Directions:**
- For use as a pre-cleaning instrument spray:
  - For flexible endoscopes, apply this product to pre-cleaned hard, non-porous surfaces by sponge, cloth, microfiber, mop, spray, pour or immersion to wet the surfaces in 60 seconds. Re-wipe the surface using a fresh cloth.

**Disposal:**
- Non-refillable container. Do not use or store near heat or open flame.

**Precautions:**
- Avoid contact with eyes, skin and clothing.
- Wear appropriate personal protective equipment based on safe work practices.

**Additional Precautions:**
- This product is not to be used as a sanitizer or deodorizer.
- Personal Protection:
  - Fluids:
    - Specified barrier protection items to be used when handling items soiled with body fluids in health care or other settings in which there is an exposure risk.
    - This product kills HIV-1, HBV and HCV on pre-cleaned hard, non-porous surfaces at room temperature when used as directed.

**Storage and Disposal:**
- Do not store near heat or open flame.
- Do not freeze.
