Groundwater contamination. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in

**OTHER INGREDIENTS**

**TOTAL:**

- Bayleton 50 Turf and Ornamental Fungicide

**USER SAFETY REQUIREMENTS**

- Chemical-resistant apron, when mixing/loading, or cleaning spills or equipment.
- Chemical-resistant gloves (except for pilots) made of waterproof material such as neoprene, butyl rubber, barrier laminate, or equivalent. The gloves must be tight-fitting and long enough to cover the wrists and forearms, and must have a spill-resistant, puncture-resistant, and liquid-resistant inner lining.
- Long-sleeved shirt and long pants

Mixers, loaders, applicators, flaggers, and other handlers must wear:

- Chemical resistant gloves made of any waterproof material

**USER SAFETY RECOMMENDATIONS**

- Do not eat, drink, or smoke in the area while applying or when equipment is being loaded.
- Do not contaminate water when disposing of equipment washwaters or rinsate.
- Do not allow this chemical to enter any water source during cleaning or maintenance.
- Do not contaminate water when disposing of equipment washwaters or rinsate.

**ENVIRONMENTAL HAZARDS**

- Do not apply directly to water bodies, where contact is made with aquatic animals. Do not contaminate water bodies with the chemical. Do not chill water bodies with the chemical.
- Do not apply to water bodies during warm weather conditions, allowing proper rinsing, covering, and developing. If the application is made into a water body, the mixture must be thoroughly mixed into the water body.

**PRECAUTIONARY STATEMENTS**

- This chemical demonstrates the properties and characteristics associated with chemicals detected in

**DIRECTIONS FOR USE**

- This is a solution of fenhexamid in this product is registered with the following labeling:

**AGRICULTURAL USE REQUIREMENTS**

- This product is only intended for use with the following agricultural vehicles:
- This product is specifically designed for and should be used only with the following agricultural vehicles and equipment:

**NON-AGRICULTURAL USE REQUIREMENTS**

- This product is specifically designed for and should be used only with the following equipment and vehicles:

**APPLICATIONS**

- This product is specifically designed for and should be used only with the following equipment and vehicles:

**NOTICE**

- The following precautions contain Bayleton 50 Turf and Ornamental Fungicide. The following precautions are not for all products and should not be applied to

**USE IN CHEMICAL SYSTEMS**

- This product is specifically designed for and should be used only with the following equipment and vehicles:

STOP – READ THE LABEL BEFORE USE OF ORNAMENTAL TURF

[TO THE USER: If you cannot read or understand English, do not use this product until the label has been fully explained to you.]
**TURF AND ORNAMENTAL FUNGICIDE**

In Water Soluble Packages

**Symptoms:** Fungicide

**Grades:** For 5-40 Square Water Soluble Packages

**Selling Unit:** 1000 SQ FT

**Active Ingredient:**

- **Bayleton 50:** 50% A.i.

**Storage:** Store in a cool, dry place.

**Handling:** Do not inhale dust or spray mist. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Use only in accordance with label instructions.

**Awareness:**

- **Harmful if swallowed.**
- **Prolonged or repeated exposure may cause allergic skin reactions in some individuals.**

**Preparation:**

- **Anhydrous ammonia.**
- **Ammonium nitrate.**

**Staff:**

- **Agricultural applicators using water soluble packets must use enclosed cockpit and maintain aircraft under the WPS for Agricultural Pesticides (40 CFR 170.240(d)(4)).**
- **Mixers and loaders using water-soluble packaging must follow job-related respiratory precautions as required under 29 CFR 1910.134(a).**
- **Engineers and operators must follow all safety precautions as required under 29 CFR 1910.134(a).**

**PPE Requirements:**

- **General PPE:**
  - **Gloves:** Latex, nitrile, neoprene, or other suitable material that provides effective barrier against the product. Gloves should be rinsed or soaked in water to remove any residue before disposing of.
  - **Eye Protection:** Goggles or other eye protection that covers the entire face, including the neck and temples, must be worn. Goggles should be rinsed or soaked in water before disposing of.

**Steps to Adopt:**

- **Precautionary statements:**
  - **Keep out of reach of children.**
  - **Do not inhale or swallow.**
  - **Do not eat or drink.**
  - **Do not contaminate water, food, or feed by storage or disposal.**
  - **Do not contaminate water, food, or feed by storage or disposal.**
  - **Do not glove-pull or glove-mix with other chemicals.**
  - **Do not apply with a water-soluble packaging.**

**APPLICATIONS:**

**BAYLETON ® 50 Turf and Ornamental Fungicide**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:**

- **Virtually non-toxic.**
- **Extremely toxic.**
- **Toxic.**

- **Caution:**
  - **Do not ingest.**
  - **Do not inhale.**
  - **Do not swallow.**
  - **Do not contaminate water, food, or feed by storage or disposal.**

**PERSONAL PROTECTIVE EQUIPMENT (PPE):**

- **Gloves:** Latex, nitrile, neoprene, or other suitable material that provides effective barrier against the product.
- **Eye Protection:** Goggles or other eye protection that covers the entire face, including the neck and temples, must be worn.
- **Face Protection:** Use NIOSH-certified particulate respirators with N95 filter or above.

**ENGINEERING CONTROLS STATEMENTS**

- **Ventilation:** Use local exhaust ventilation to reduce exposure to dust or mist.
- **Personal hygiene:** Wash hands thoroughly with soap and water before leaving the work area.

**Hazardous Controls Statement:**

- **Labelling:**
  - **Caution:**
  - **Danger:**
  - **Warning:**

**ENVIRONMENTAL HAZARDS:**

- **Avoid contact with eyes, skin, or clothing.**
- **Avoid breathing dust or spray mist.**
- **Avoid contact with eyes, skin, or clothing.**

**APPLICATIONS:**

**TURFGRASS DISEASE CONTROL**

**Turfgrass Application Directions**

- **For ground applications:**
  - **Equipment:**
    - Boom sprayer
    - Hand-held sprayer
    - Sprayer, tank and hand-held spray gun, or wand.

**TURF AND ORNAMENTAL FUNGICIDE**

**In Water Soluble Packets**

**SYSTEMIC FUNGICIDE**

Grades: 50-200 Soluble Water Soluble Fungicide

**Comment: Bayleton 50 Turf and Ornamental Fungicide can be tank-mixed with ProStar 70 WP for use on turf in accordance with the more restrictive label directions for ProStar 70 WP.**

**ACTIVE INGREDIENT:**

Bayleton @ 50.0 oz/100 gal; 0.5 lbs/A = 0.05 lbs/A

**OTHER INGREDIENTS:**

TWO INGREDIENTS: Bayleton 50 Turf and Ornamental Fungicide contains the following active ingredients: 50% Bayleton 50 WP and 5% loco. (BAYLETON 50 consists of 50% Bayleton 50 WP and 5% loco.)

**STOP – READ THE LABEL BEFORE USE OF ORNAMENTAL TEACHING Aids**

The pesticide product label contains the following recommendations for the use of Bayleton 50 Turf and Ornamental Fungicide:

1. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
2. Do not allow spray deposits to contact flowers or other ornamental plants.
3. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
4. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
5. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.

**USE OF COMPLETELY SCREENED HERBICIDES ONLY**

The pesticide product label contains the following recommendations for the use of Bayleton 50 Turf and Ornamental Fungicide:

1. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
2. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
3. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
4. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.
5. Do not allow spray deposits to contact sweet potatoes or other susceptible ornamental plants.

Application with hose-end sprayers are permitted only for outdoor use on ornamentals. Use of hose-end sprayer equipment in non-registered use areas is restricted. Refer to Application Rates section for instructions detailing use for each disease. In California, only those registered for use on Residential lawns** do not apply to Concolor Fir* (Except California).

DISEASE

Application w ith hose-end sprayers are permitted only for outdoor use on ornamentals. Use of hose-end sprayer equipment in non-registered use areas is restricted. Refer to Application Rates section for instructions detailing use for each disease. In California, only those registered for use on Residential lawns** do not apply to Concolor Fir* (Except California).

1 Mix 5.5 oz of Bayleton 50 Turf and Ornamental Fungicide in 68.75 to 137.5 gal of water and apply as a full coverage foliar spray to the point of drip. Use multiple applications at 7- to 14-day intervals as needed dependent upon bloom periods.

2 Apply before plant emergence for minimum levels to prevent the appearance of disease symptoms. Initiate cultural control measures prior to or at the same time the fungicide is applied.

3 Immediately after the fungicide is applied, the area should be thoroughly irrigated to move the active ingredient down into the soil for maximum effectiveness.

4 Applications may begin at the expanded bud stage (color showing or at bud break on Hemlock). Use 4 applications at 14-day intervals.

5 For control of Burdick’s Blight, apply 5.5 oz per 0.69 acres in sufficient water to provide full coverage in a spray application to the point of run-off. Apply in early spring as growth starts and re-apply on a 14- to 21-day interval until new growth is established. Do not apply over snow cover, or when turf is dormant.

6 Do not contamination water bodies, food, feed, and treated materials with this product. When applying to lawns, snapdragon, and weeds, do not apply to any portion of an orchard or vineyard. Do not allow it to contaminate water bodies. Do not use spray equipment that may cause drift. Do not use equipment that may cause drift. Do not apply to food or feed areas.

7 Application has been evaluated as a growth regulating agent on Ponderosa Pine Seedlings (September 1 to July 31). This application may be necessary in areas where pine seeds are used as a substitute for other fuels.

8 To control for Stem and Cone Rusts, apply specified dosage per acre or per 100 gal of water as a full coverage, dilute spray as needed. Full cure rates may be obtained in 4 to 16 oz/A and end in mid-October. Make applications at 21-day intervals. Extend interval to 28 days if spore pressure is low.

9 For control of Burdick’s Blight on Ponderosa Pine Seedlings, apply 2 oz for 4 to 16 oz/A.

10 This product contains a chemical known to the State of California to cause birth defects or other reproductive harm.

**STORAGE AND DISPOSAL**

Do not contaminate water sources. Wash hands and other exposed skin after handling. Do not reuse or refill this container. Dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke. Handle and open container in a manner as to prevent spillage. If the container is leaking or material spilled for any reason or cause, do not attempt to repair the container. Do not incinerate or mix with other waste materials. Treat waste resulting from the use of this product on site or at an approved waste disposal facility. Refer to Precautionary Statements on the label for hazards associated with the handling of this product.
The maximum application rate for ornamentals (including Azaleas) at residential sites is 0.0025 lb ai/gal. For control of annual weeds and spring and summer annual grasses, mix 5.5 oz of Bayleton 50 Turf and Ornamental Fungicide in 68.75 to 137.5 gal of water and apply as a full-coverage foliage spray. APPLICATION RATES: • Do not use edible portions of treated trees, such as nuts and syrup for feed or food. Ornamental Fungicide may affect the result. Contact local university extension personnel prior to use of spray mix additives.
