**Pelleted, Non-Selective, Residual Herbicide**

**ACTIVE INGREDIENTS**

- Sodium Metaborate* (NaB₂O₄) ........................................... 48.5%
- Sodium Chlorate (NaClO₃) ............................................... 30.0%

**INERT INGREDIENTS** .................................................. 21.5%

TOTAL 100.0%

*Equivalent to 6.5% boron expressed as elemental boron.

EPA REG. NO. 33560-48  EPA EST. NO. 19713-TN-006

THIS PRODUCT CONTAINS A FIRE RETARDANT

**KEEP OUT OF REACH OF CHILDREN**

**DANGER — PELIGRO**

**PRECAUTIONARY STATEMENTS**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes irreversible eye damage. Wear protective eyewear (goggles, face shield, or safety glasses). Do not get in eyes or on skin or clothing. Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

**USER SAFETY RECOMMENDATIONS**

**PERSONAL PROTECTIVE EQUIPMENT**

Applicators and other handlers must wear:
- Long-sleeved shirt and long pants
- Shoes plus socks
- Protective eyewear
- Chemical resistant gloves made of any waterproof material

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Do not store near food or feed products. Store out of weather.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water used by wildlife and aquatic life, or for domestic and irrigation purposes. Do not apply where runoff is likely or where weather conditions favor movement away from target areas. Do not contaminate water when disposing of equipment washwater or rinsate.

**FIRST AID**

**IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lens, if present, after first five minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or a doctor for treatment advice.

**IF SWALLOWED:**
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF INHALED:**
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration; preferably by mouth-to-mouth, if possible.
- Call a poison control center or a doctor for treatment advice.

Have this product container or label with you, when calling a poison control center or doctor or going for treatment.

**NOTE TO PHYSICIAN:**

Probable mucosal damage may contraindicate the use of gastric lavage.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Avoid contact with floor and moisture.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Improper disposal of excess pesticides, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Empty product from bag before disposal. Dispose of bag in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.
GENERAL INFORMATION

BareSpot® Monobor-Chlorate is designed for non-selective kill of weeds and grasses with a single treatment. Use for quick knock-down of existing vegetation as well as short season control in the fall for control of regrowth or new seedlings.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

FOR USE ON NON-CROPPED AREAS

IMPORTANT: This material is not selective in action, may be toxic to all types of vegetation, and may render the entire treated area totally or partially unproductive for one or more years. Care should be taken to continue the use of application to the particular area intended to be treated and to avoid its contact with lawns, trees, shrubs, crops and other desirable plants which are not intended to be destroyed or injured. This includes precautions in treating areas which may be taken by roots of adjacent desired growths. Careless application of this material, or washing by water run-off to areas where desirable plants are growing or which will be used for forage planting may result in injury to desirable plants. Do not allow heap or flush equipment on or near such areas.

Do not contaminate domestic or irrigation water or waters used by fish and wildlife. Wash clothing and equipment after application. Keep animals off treated areas until all the herbicides have been absorbed into the soil. Mechanical equipment should be thoroughly cleaned after use.

WHERE TO USE

AROUND OR NEAR THE FOLLOWING: Bleachers, Riteide abutments, Buildings, Bunkers, Buried cable closures, Carwalks, Cemeteries, Compressor stations, Cooling towers, Cross connect boxes, Ditch banks, Electrical generators, Fences lines, Fire hydrants, plugs or walls, Fuel tanks, Generating plants, Guardrails, Halo pads, Highway & street markers, Loading stations, Lumber yards, Microwave towers, Oil & Gas pipelines, Oil refineries, Parking lots, Pumping decks, Railroad ties & switch, Runway lights, Runways, Sign posts, Storage & equipment yards, Utility poles & substations, Vacant lots, Valves & manifolds, Waste lagoons.

UNDER THE FOLLOWING: Asphalt, Concrete, Gravel Driveways, Sidewalks or walkways and other similar non-cropped areas.

WHEN TO USE: Use BareSpot® Monobor-Chlorate anytime during the growing season. Weeds and grasses are easier to kill when they are young and growing rapidly.

APPLICATION: BareSpot® Monobor-Chlorate is ready to use. Apply with a hand-operated spreader, such as a conventional cyclone type spreader, or a power spreader for larger areas. Apply granules uniformly over the area to be treated. The material becomes effective in the soil, followed by rainfall or watering.

Use the following rates of application under most conditions:

<table>
<thead>
<tr>
<th>KINDS OF WEEDS</th>
<th>APPLICATION RATES</th>
</tr>
</thead>
<tbody>
<tr>
<td>GENERAL WEED CONTROL</td>
<td>2 LBS. PER 100 SQ. FT.*</td>
</tr>
<tr>
<td>PERENNIAL WEED CONTROL</td>
<td>4 LBS. PER 100 SQ. FT.**</td>
</tr>
</tbody>
</table>

Approximately 2 1/2 cups of BareSpot® Monobor-Chlorate equals 1 lb.

*As low as 1 lb/100 sq. ft. can be used on young and rapidly growing annual weeds.

**As low as 2 lbs/100 sq. ft. can be used on young and rapidly growing perennial weeds.

APPLICATION CONVERSIONS

</thead>
<tbody>
<tr>
<td>3#</td>
<td>4#</td>
</tr>
<tr>
<td>2 ft. diameter</td>
<td>1 oz.</td>
</tr>
<tr>
<td>4 ft. diameter</td>
<td>4 oz.</td>
</tr>
<tr>
<td>6 ft. diameter</td>
<td>9 oz.</td>
</tr>
</tbody>
</table>

(1/2 rate can be used when weeds are young and growing rapidly)

UNDER ASPHALT PAVING – For use as “preparing” residual herbicide under asphalt paving to prevent premature breakdown of paving due to weeds. It is recommended to apply BareSpot Monobor-Chlorate to the finished pre-asphalt grade. For dry application, 2-4 pounds per 100 square feet. After treatment apply at least 2 feet of water per 100 square feet to dissolve and incorporate the herbicide in the soil. For spray application, dissolve 1-2 pounds per gallon of water and apply 11/2-2 gallons per 100 square feet. Where surfacing has already cracked by emergent vegetation, inject BareSpot Monobor-Chlorate in a solution of 2 pounds per gallon of water. Inject under pressure into the subsurface with a sharpened, perforated steel pipe.

NOTICE: Because of many varying conditions affecting use and application, such as location, season, weather, soil composition and type of vegetation, manufacturer warrants that these and other conditions may impair or vary the results or effects of the use of this product. In any event, complete elimination of weeds is not guaranteed. It is advisable to consult your State Extension Service or Agricultural Experiment Station Weed Control Specialist on specific problems. Neither manufacturer nor seller shall be liable in respect to any injury or damage incurred by reason of the use of this product, for a purpose not indicated by the label or when used contrary to the directions or instructions herein, or with respect to breach of any warranty not expressly specified herein. Buyer accepts the material subject to these terms and assumes all risks of usage and handling except when used and handled in accordance with the label. Neither manufacturer nor seller makes, and their employees and agents are not permitted to make, any representations or warranties, expressed or implied by law, not specifically set forth herein.

DISCLAIMER: Pro-Serve, Inc. warrants only that the material contained herein conforms to the chemical description on the label and is reasonably fit for the use therein described when used in accordance with the DIRECTIONS. It is impossible to eliminate all risks associated with use of this product. Injury to desired vegetation, unhealthiness or other unlisted consequences may result because of such factors as weather conditions, presence of other minerals, soil conditions, or the manner of use or application, all of which are beyond controllable commercial damages, such as loss of profit or value of any other species as indirect damage. Pro-Serve, Inc. makes no other expressed or implied warranty, including any other express or implied warranty of FITNESS or MERCHANTABILITY.
