This product contains water, and should be stored in a cool, dry, well ventilated area away from heat or open flame. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all equipment is working properly. Backfeed the filter system following manufacturer’s directions. Adjust it between 2-7 m. in chlorine treated pools, and stabilize to establish a minimum residual level of 30-40 ppm to reduce the detrimental effects of sunlight upon the chlorine residual. Do not add stabilizer to swimming pools.

Before using this product check for metals and if present, add a chlorine or bromine product. The addition of metals will cause decomposition of this product and cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals will cause a chemical reaction and generate heat, hazardous gases, produce fire and explosions. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

**STORAGE AND DISPOSAL:** Keep this product in its original tightly closed container until ready for use. Do not mix with other pool chemicals. Mix only with water. Never add water to this product. Always add this product to large quantities of water. Use clean dry utensils. Do not add this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

**WARNING:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions. Buyer assumes all responsibility for safety and use not in accordance with directions.

**DIANE LINE: B65000R1 (85oz) 4 1/4" x 13 3/4"**

**Contact lenses:** If present, after the first 5 minutes, then continue massage. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth if an unconscious person. Note to Physician: Probable gastric lavage may exacerbate the condition. Refer to physician as soon as possible. Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth if an unconscious person. Note to Physician: Probable gastric lavage may exacerbate the condition. Refer to physician as soon as possible.

**FIRST AID:** IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue massage. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth if an unconscious person. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

**PRECAUTIONARY STATEMENTS:**

**Hazard Statements:** H315-CAUSES SEVERE SKIN IRRITATION. H319-CAUSES EYE IRRITATION. H335-CAUSES COUGHING, HICKLING, SORE THROAT OR SPUTUM FORMATION IF INHALED. H336-CAUSES SUFFOCATION. H337-CAUSES DAMAGE TO THE HEART OR LUNGS IF INHALED. H341-CAUSES IRITATION OF THE SKIN OR EYES. H351-CAUSES DAMAGE TO THE LIVER, KIDNEYS OR ADRENALS. H353-CAUSES DAMAGE TO THE LIVER, KIDNEYS OR SKIN. H360-CAUSES DRYING OR CHAPPING OF THE SKIN. H373-CAUSES DAMAGE TO THE EYES. H375-CAUSES DAMAGE TO THE LUNGS.

**Precautionary Statements:** P261-CONTAIN SPILLS IN A WELL VENTILATED AREA. P263-CONTAIN SPILLS IN A WELL VENTILATED AREA. P280-WEAR RESPIRATORY PROTECTION. P281-USE RESPIRATORY PROTECTION (TYPE P2 Filtering face piece with最少8得很好). P270-USE SAFETY GLASSES OR EYE PROTECTION. P262-CONTAIN SPILLS IN A WELL VENTILATED AREA.

**Physical or Chemical Hazards:** STRONG OXIDIZING AGEN. Do not add with other chemicals. Mix only with water. Never add water to product. Always add this product to large quantities of water. Use clean dry utensils. Do not add this product to any dispersing device containing remnants of other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gases, produce fire and explosions. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms. It may cause detrimental effects to the aquatic environment. It may cause detrimental effects to aquatic organisms.

**Inhalation:** In case of inhalation, get pure fresh air and remove to fresh air. Call 1-800-252-POOL (7665) or visit www.aquachem.com for emergency assistance. Note to Physician: Probable gastric lavage may exacerbate the condition. Refer to physician as soon as possible. Call 1-800-252-POOL (7665) or visit www.aquachem.com for emergency assistance.
