DR. EARTH
100% Organic Insect Spray

DR. EARTH ROSE & FLOWER INSECT SPRAY was developed for today's gardener who requires safe and effective control of insect pests without using harmful chemicals around their family, pets, or in their garden. Our technology is naturally occurring and derived from a combination of essential oils along with garlic extract. This dynamic combination smells herbal and fresh and effectively controls a broad spectrum of insects, including Aphids, Leafhoppers, Beelies, Caterpillars, Whiteflies, Mealybugs, Mites, Scale, Centipedes, Earwigs, Gnats, Silverfish, Spiders, Codling Moths, Flies, and other insects. Dr. Earth goes to work immediately; death generally occurs minutes after application but could take many hours depending on the type of insect and how much spray was delivered directly on the pest. The product is an ideal and effective way to control and knock down insect pests naturally.

DIRECTIONS FOR USE:
Ready to use. Please read the entire label carefully. Use only as directed.

ROSE & FLOWER INSECT SPRAY USE: At first sign of infestation, target the area to be treated by thoroughly wetting all parts of the plant, foliage, including the underside of the leaves, avoid spraying blooms directly. Repeat application 10 to 14 days or sooner if needed. Do not apply to plants experiencing drought stress. Apply early morning or late afternoon to avoid leaf burn. Use cautiously on sensitive plants. Test a small part of one plant for phototoxicity (leaf burn) before application. May be used on edible crops up to and including the day of harvest. Do not apply when beneficial insects or bees are active.

PRECAUTIONARY STATEMENTS: CAUTION: KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID: If In Eyes: Flush eyes with plenty of water. Get medical attention if irritation persists. If On Skin: Wash with plenty of soap and water. Consult your physician if irritation persists. If Inhaled: Seek fresh air. If Swallowed: Rinse mouth out with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.

STORAGE AND DISPOSAL: Storage: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Avoid storing below 40° or above 100°. Disposal: Do not reuse container. Securely wrap original container in several layers of newspaper and dispose of in trash.
