Pennsan Quat 5

Dyes – Beverage and Food Processing Plants

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, and continue rinsing. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash skin thoroughly with water and a good detergent. If skin irritation occurs: Wash with water and a non-irritating soap. If any irritation persists, consult a physician.

IF SWALLOWED: Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If breathed by an unconscious person, administer artificial respiration. If breathed by a conscious person, allow to breathe; do not give artificial respiration. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into rivers, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional EPA.

DIRECTIONS FOR USE

If you use Pennsan Quat 5, be sure to observe the following general directions that can be used to disinfect floors, walls, finished woodwork, doors, door jams, lab benches, shelves, and any other hard, non-porous surfaces. For heavily soiled areas, a pre-cleaning step is required. Apply disinfecting solution to surfaces, scrub and rinse. Do not use spray because residue will stick to thoroughly wet surface. Allow surface to remain wet for 10 minutes. Remove solution with a dry cloth, mop, or vacuum. Wipe when dry. Do not use for dishes.

Precautions for use:

DANGER:

DIOCTYL DIMETHYL AMMONIUM CHLORIDE

Alkyl (C14, 50%; C12, 40%; C16, 10%)quat.

Inhalation:

Gastric lavage. Probable mucosal damage may contraindicate the use of gastric lavage.

Skin:

Rinse with water and a non-irritating soap. If any irritation persists, consult a physician.

Eyes:

Rinse with water for 15 minutes. If irritation persists, consult a physician.

Ingestion:

Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Artificial respiration may be necessary if breathing has stopped.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, and continue rinsing. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash skin thoroughly with water and a good detergent or compatible cleaner followed by a potable water rinse. For severe skin irritation, consult a physician.

IF SWALLOWED: Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Artificial respiration may be necessary if breathing has stopped. If swallowed, call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.
